baby
names

congratulations

You have a baby on the way!

Will it be a boy or girl?

Where will he go to school?

What will she grow up to be?

Who will he marry?

How will she change the world?

What will you name him?

There are so many questions.

While we can't help with all of them,
perhaps we can help by providing
some ideas for a name.

a little trivia

2006 was a busy year for everyone. George Bush was halfway through his second term as president; Pluto was no longer included as a planet; New Orleans continued to recover from Katrina; YouTube was the popular rage; TomKat, Paris and Britney were household names; and the Crocodile Hunter died.

During this time, there were more than 50,000 babies born to Oklahoma residents. Parents were very creative. Names were chosen from every letter of the alphabet and reflected family and world history, cultural diversity, historical/popular figures, favorite places, emotions, but most of all — imagination. There were 4,948 different boys names and 7,208 different girls names.

There were even 528 that were used for both boys and girls. For boys, names ranged from A, Aaden, and Aaiden to Zyjaiden, Zylar and Zyqurion and among girls they ranged from Aahlia, Aakeyla, and Aalauna to Zykiyah, Zyrkya and Zyriya.

Some of the more unique names include Adventure, Arrow, Balance, Brave, Catch, Chaos, Disney, Driver, Freeway, Jack Daniel, Ledger, Lariat, Messiah, Rope, Scotland, Sheriff, Snow, Sphinx, Tattoo, and Tequila; as well as popular celebrity names like Xzibit, and Beyonce. Many parents tried to add a twist to common names by spelling them a little differently like Abigail. It was spelled at least 20 different ways in 2006 including Abbagayle, Abygaile, Abbigale, and Abagale. Less traditional names were also given several twists. Jayden and Payton are very common names that have become popular recently and are spelled a variety of different ways.

looking back

A lot has changed over the last 30 years! In 1975 Gerald Ford was president, the Vietnam War was ending, VCRs were just beginning to be developed, Saturday Night Live premiered on television, and Jaws was box office gold. In the sports world, OU won their second NCAA football championship in two years.

There were nearly 43,000 births to Oklahoma residents in 1975, however the diversity in names was not present to the same level it is in 2006. There were only 2,208 unique boys names and 3,715 unique girls names — half as many as in 2004! Michael was the most popular boys name and was given to 862 boys and 4 girls. Jennifer was given to 776 girls.

application forms

Application forms are available at the Vital Records Office or may be printed from this site: www.health.state.ok.us/program/vital/brec.html.

To better provide service to you we request that you fill out the application form as completely and accurately as possible. This information helps us to help you and allows us to process your

request in an expedient manner with no unnecessary delays. Wrong or inaccurate information will delay our search and may result in the document not being located. You can be assured that every attempt will be made to make a thorough search of our files for the document you have requested.

Birth records are not open for public inspection. A birth certificate may be applied for by the person him/herself, the immediate next of kin or an authorized agent, who must provide a statement indicating that they are working in the best interest of the registrant, by written application, proper identification, proper information and applicable fees.

information required

The information required to process a request for a birth certificate follows:

- The full name at birth.
- The date and place (city or county) of birth.
- Father's full name (first, middle, last).
- Mother's full name (including maiden name).
- Relationship to the person whose certificate is being requested and the purpose for needing the copy.
- Your daytime telephone number with area code.
- Your handwritten signature and complete return mailing address.
- A valid, legal photo I.D. is required from the applicant or the individual

representing the applicant for the issuance of a birth, death or stillbirth certificate. Do not send original ID with your application; please send a photocopy.

- In addition to a written request, you must include the necessary fees.

heirloom birth certificates

Heirloom certificates are available from the Vital Records Office. Oklahoma Statutes Title 63, Section 1-316a provide for the issuance of an heirloom birth certificate. The Heirloom Birth Certificate is 11 x 14 with a dark blue trim, bearing a silver and gold seal, depicting a view of the State Capitol Dome. The certificate will reflect the child's name, date of birth, place

of birth and names of the parents. The cost is \$35 for the issuance of one Heirloom Birth Certificate as well as a standard Certified Birth Certificate. In accordance with this Statute, proceeds from the sale of the heirloom birth certificate shall be used by the Child Abuse Training and Coordination Program, providing training and technical assistance to judges, prosecutors and members of the multi-disciplinary child abuse teams who intervene in circumstances of child abuse.

fees

The fee for the search of a birth record is \$10. This fee will pay for the issuance of one certified copy of the birth

certificate to a qualified applicant if it is located. Additional copies are \$10 per copy. The searching fee is not refundable or transferable. Please make your check or money order payable to the Vital Records Service. If mailing your request, please enclose a self addressed stamped envelope for return of the requested certificates. Corrections or additions to birth records require additional fees and submission of required documentation. Instructions and assessment of fees will be made on an individual basis after review.

expedited service

Requests using the U.S. Postal Service's or other overnight services, next day delivery, will allow

processing within 24 to 48 hours. These services however, must include an envelope with U.S. postage attached or a check payable to the appropriate courier for the total amount of pickup and delivery of the item. These fees can be determined by contacting the courier in advance. Account numbers will not be accepted since the Vital Records Office has been advised by the major couriers, that as the sender we will be held responsible for payment if the individual declines payment for any reason. There will be no exceptions. If this process is not complete the document will be returned by regular U.S Mail. Birth or death certificates cannot be faxed. VitalChek also provides online service.

paternity

Establishing paternity is the legal process used to determine the legal father of a child. If the mother is married, the husband will be shown on the birth certificate as the father unless 1) paternity has been determined otherwise by a court or 2) a husband's denial of paternity form has been filed along with an affidavit acknowledging paternity. If the mother is not married, the father will only be shown on the birth certificate if:

- 1) a determination of paternity has been made by DHS or a court, or
- 2) the mother and father have signed an affidavit acknowledging paternity and filed it with the State Registrar of Vital Statistics. Hospitals are required to

verbally inform unmarried parents and provide materials describing their rights and responsibilities and provide an Affidavit Acknowledging Paternity. The Affidavit Acknowledging Paternity can also be obtained from the Oklahoma State Department of Health Vital Records Office, local county health departments, Department of Human Services offices, local child support enforcement offices, and is also available online <www.okdhs.org/ChildSupport/forms/209questionnaire.htm>. The affidavit contains 1) a statement by the mother consenting to the assertion of paternity and stating the name of the father, 2) a statement by the father that he is the natural father of the child, 3) the social

security numbers of both parents and 4) any other information that may be required by the Secretary of Human Services.

If either the mother or presumed father has any doubts about who the biological father is, they should consider doing genetic testing before signing the Affidavit Acknowledging Paternity. Either the mother or presumed father can go to their local child support office and open a child support case to establish paternity for \$25. The State will pay the initial costs for the genetic testing. If the test is positive, the biological father may be ordered to reimburse the State \$138, the current cost of the testing. This cost is far below that of genetic testing done

by private laboratories. Paternity should be established as soon as possible. Even if the father agrees to help support the child now, he may change his mind later, may become disabled, or even die. So, even if he agrees to support the child now, there are other benefits that are available only if paternity has been established. Under Oklahoma law, the mother is presumed to have sole custody of a child born outside of marriage. The child's mother and father can agree upon visitation, and the child's father has a right to go to court to seek visitation.

For more information about establishing paternity, visit <www.okdhs.org/ChildSupport/FAQ/paternity.htm#01>.
