

# Facebook Smart Card Security in an Insecure World

Social Media sites help us keep in touch with friends and family around the globe. It is important to maximize security settings to keep outsiders from obtaining your personal information.

## Facebook offers privacy settings for added security

## Social Networking DOs & DON'Ts

- Establish and maintain connections with people you know and trust; review your connections on a regular basis
- Assume that ANYONE can see information you post about your activities, location, and personal and professional life
- Make sure your family takes similar precautions with their accounts; their privacy and sharing settings can expose your personal data
- Avoid posting or tagging images of you or your family that clearly show your face
- Post pictures taken at a distance or angle that conceals your identity
- Use secure browser settings when possible, and monitor your browsing history to ensure that you recognize all access points

**Security Settings**

- Enable login alerts, so you know when your account is accessed → Edit
- Require approval to log in from new browsers → Edit
- If you enable this, be very selective who you trust → Edit
- Check often and delete any unsecured, shared browsers → Edit
- Check often and remove any unknown active sessions → Edit
