

List of non-qualifying communities to fulfill a HWTC obligation - Private Practice

For MSN, DNP and Phd applicants who wish to establish a private practice upon graduation, HWTC defines "rural" as any community 35 miles or more from the OKC and Tulsa metro areas. This page lists the communities that do not meet this definition, and **do not qualify** to fulfill a HWTC obligation. Please review this list carefully, as it may include some communities that you would otherwise consider to be rural. If you are uncertain as to whether or not the facility you plan to fulfill at is considered rural, please don't hesitate to ask so that we can make sure.
