Workgroup for the Development of EPA Methane Rule Guidance Document for State Regulators

- Purpose: Develop written guidance to assist State Regulators in a basic understanding of the Methane Rule and its implications in their State.
- Workgroup Members
 - Adam Wygant
 - Drew Nelson
 - Eric Vendel
 - Lucas Stephens
 - Elizabeth Paranhos
 - Dave Flannery
 - Matt Eales

Initial Focus of Workgroup

- Gather existing publicly-available information:
 - EPA Public Resources
 - Legal References
 - EDF References
- Create initial list of questions from State Regulators
- Assemble the above information into a shared document posted at the IOGCC website

Next Steps

- Workgroup agreed in value of adding a State Air Regulator to Team – looking for one or two volunteers
- Survey Monkey questionnaire will be sent to Regulators after the meeting with
 - Initial list of questions created by Workgroup
 - Ability to vote on pertinence
 - Allows the addition of questions that Workgroup can address in reference document.
- Finalize document to present at Spring Annual Business Meeting – May 19, 2025
