6. **Committee and public discussion of variance request by BayoTech Corporation, in association with Opal Fuels, regarding hydrogen storage cylinders falling outside the current scope of the Boiler and Pressure Vessel Safety Act. Committee shall hold a public vote if recommending the variance be granted, otherwise no action needed.....Jeff Twiehaus**
BayoTech Corporation has requested variance from the Oklahoma Department of Labor, in accordance with OAC 380:25-3-8(a), to use USDOT Special Permit SP-14576 approved hydrogen storage cylinders for the transportation and storage of hydrogen within Oklahoma. BayoTech Corporation maintains its composite-wrapped cylinders, which are manufactured in accordance with USDOT Special Permit SP-14576, meet or exceed the design and testing requirements of the ASME Pressure Vessel Code, which is the standard found under the Oklahoma Boiler and Pressure Vessel Safety Act. BayoTech Corporation advises it was granted a similar variance in California, CAL OSHA Variance 13-V-186, approximately ten (10) years ago. Committee and public discussion and potential Committee action. Handout(s)
7. **Alternative Fuels Program and Legislative Updates.....Jim Williams, Director, ODOL Safety Standards Division**
Jim Williams to provide the Committee with updates on the Alternative Fuels Program, with Committee discussion and potential Committee action. Updates will be limited to past and ongoing field activities (field reports) by ODOL Alternative Fuel inspectors; existing and anticipated

program changes for the Alternative Fuels Division; and information regarding existing or proposed legislation and rulemaking impacting the Alternative Fuels industry, Alternative Fuels Division, with Committee and public discussion.
