State Board of Medical Licensure and Supervision

FAIR MARKET VALUE HOURLY RATE FOR SUPERVISION SERVICES OF ADVANCED PRACTICE REGISTERED NURSES

HB 2298 (2025) requires the State Board of Medical Licensure and Supervision to establish a fair market value hourly rate for supervision services of Advanced Practice Registered Nurses who have not obtained independent practice authority. A supervising physician may charge a reasonable fee to the APRN for his or her supervision services. Any such fees shall be disclosed in the supervision agreement, be appropriate based on the actual duties and responsibilities of the supervising physician, and shall be a fair market value hourly rate.

The fees may also be set by mutual agreement between the APRN and supervising physician.

The Board establishes a rate of up to $500 per hour as the fair market value hourly rate required by HB 2298.

The State Board of Medical Licensure and Supervision encourages supervising physicians and APRNs to determine a reasonable fee based on their specific circumstances including the specialty, geographic location and other factors.

Adopted by the Board on January 29, 2026
