The scheduled regular meeting of the Oklahoma Mining Commission was called to order in accordance with the Open Meeting Laws at 10:30 a.m. by Commissioner Kurt Klutts, Chairman of the Commission.

Meeting Place: Oklahoma History Center, Oklahoma City, Oklahoma, and Zoom Videoconference. Roll call was made and a quorum was declared with seven (7) members present. Commissioners Donoley and Haven were absent.

Safety Moment: ODM Technical Bond Analyst Rawles Roberts gave a brief presentation on cybersecurity and protecting personal information in the digital age. Mr. Roberts discussed using the SLAM acronym to stop, look, analyze, and manage vulnerabilities when using public Wi-fi, Bluetooth, and touchless payment systems. Mr. Roberts also shared the updated Emergency Contact sheet complete with direct links to ODM and Mine Safety and Health Administration (MSHA) telephone numbers that Chairman Klutts had recommended be prepared. Director Rodesney showed meeting attendees how to download the sheet using the QR code and save the contact page as an easily accessible icon on a mobile phone.

Motion 1, March 21, 2024, Regular Meeting Minutes: A motion was made by Commissioner Caldwell and seconded by Vice Chairman Curtis that the minutes of the March 21, 2024, meeting be approved. Roll call was made and the motion passed unanimously with seven (7) aye votes.

Director's Report: Director Rodesney greeted everyone and reported the following:

Permitting Review Process for Minerals Permits, Transfers, and Revisions

- Director Rodesney asked Ginna Harmon, ODM Minerals Permit Manager, to briefly explain
 how applications are reviewed and the general processing timelines. Mrs. Harmon explained
 the different types of applications ODM receives and what issues may arise that will cause
 delay.
- Mrs. Harmon reported ODM is processing applications much more quickly this year than in recent years. Processing times have reduced across the board by one-third to one-half and she attributed this in part to improved communication amongst ODM team members and with permittees.
- Mrs. Harmon also noted ODM's safety gram on accident reporting and the Emergency Contact sheets are being mailed out with new permits.

Congratulations

• Commissioner Helm was awarded the 2024 Barry K. Wendt Memorial Commitment Award during the National Stone, Sand & Gravel Association meeting in March.

Legislative Update

- ODM is monitoring bills, which may have an impact on the industry or agency, although there are no active bills directly linked to ODM under consideration at this time.
 - House Bill 1941, which adds language to distinguish between mine operators and contract miners on mining permit applications, is dead pursuant to rules. This was a carryover bill from last session.
 - o House Bill 2730 requires a 30-day response time to an open records request. ODM has already implemented the change into its new open records policy.
 - o House Bill 3937 requires public entities publish notices of meetings and meeting agendas on their respective websites as well as at the physical location. This is part of ODM's existing procedures.
 - Senate Bill 1273 directs the Department of Environmental Quality to create the Blue River
 Little Blue Creek Stream Health Assessment Study.
- ODM's budget request for FY2025 is still in consideration. The House has created an interactive budget portal for interested parties to view what funding is being proposed by the House and by the Senate for each agency or board. Mrs. Rodesney shared the website and demonstrated how to access information.

Modernizing Efforts

- In compliance with Executive Order 2023-14, all agency vehicles will have Geotab Automatic Vehicle Locator (AVL) systems installed by the end of April. The Geotab web application will provide real-time information about vehicle location and speed as well as monitoring vehicle maintenance concerns. Installation is free, but the agency will pay a monthly \$22 per vehicle for the service.
- ODM is continuing to contract with the Department of Corrections for digitization services. Twenty-four boxes of current permit records have been sent over for scanning.

Bi-annual Audit

• ODM has been notified that the State Auditor and Inspector's office will audit the agency for the period January 1, 2021-June 30, 2023. The audit will consist of reviewing financial records and policies and procedures, analyzing state accounting system reports, interviewing staff, and testing selected transactions. The estimated cost to the agency is \$14,700.

Personnel

- ODM has hired former Minerals Administrator Richard Shore on a part-time special project basis for his blasting expertise. Mr. Shore will accompany inspection staff on non-mining blasting events and reviews of distributor records to assist in expanding their knowledge base of blasting law and practical applications. He will work one-on-one with the inspectors to help them become blasting experts.
- The agency has contracted with an additional informal conference officer with mediation experience to assist with impartial recommendations regarding applications for permits or bond release as requested.

Other Updates

- In March, ODM participated in the South Central Joint Mine Health and Safety Conference Association Conference.
- The agency will participate in Water Appreciation Day at the Capitol later this month.

Motion 2, Renewal of Recertification Training Accreditation for Monty Tolbert, MT Mine EHS Consulting: Director Rodesney presented Monty Tolbert's request to renew his recertification training accreditation with the Commission. Mr. Tolbert previously worked for U.S. Silica and, if approved, this will be his second year authorized to provide supervisor refresher training as an outside contractor. Mr. Tolbert's request including his resume, credentials, and training plan is in the meeting folder. Oklahoma Miner Training Institute (OMTI) Director Michael Reed reviewed Mr. Tolbert's training plan and submitted his recommendation to ODM. Mr. Reed's letter is included for the Commission's evaluation as well. A motion was made by Commissioner Brakefield and seconded by Commissioner Caldwell to approve Monty Tolbert's request for recertification training accreditation for another year. Roll call was made and the motion passed unanimously with seven (7) aye votes.

Financial Report: Chief Financial Officer Benita Jose-Mathew reported the agency has expended \$1,693,330 or 64% of its overall budget thus far in FY2024 and is 75% through the fiscal year. ODM had \$136,452 in its revolving fund at the end of March and the balance in the clearing account eligible for transfer is shown on page 2. The third page shows agency collections are strong at 81% for the year with 76% of the budgeted non-coal production fees collected. Eighty-eight (88) million tons have been reported for calendar year 2023. The projected estimate for FY2024 is 90 million tons with 72.5 million tons collected so far. Expenditures as shown on the fourth page, by major cost category, remain steady. Overages include costs for cell phone upgrades, printing costs for the agency, and memberships for agency staff. Page 5 is ODM's financial history page and page 6 shows the recent billing statement from Eastern Oklahoma State College (EOSC) for OMTI expenses. The EOSC bill has been paid. Ms. Jose-Mathew reported there is no Director P-card statement for the Commission to approve this month as Director Rodesney has not used her P-card for any travel expenses. Chairman Klutts inquired if the agency can negotiate cell phone plans and Ms. Jose-Mathew explained there is a state contract. Currently ODM staff are on a Verizon plan and OMTI staff are using A T & T. Commissioner Brakefield inquired about the bond forfeiture funds available to reclaim forfeited mine sites. Ms. Jose-Mathew and Director Rodesney explained there is a prepared list of non-coal sites that need to be reclaimed using the available funds. If ODM receives state appropriations for the reclamation team, a construction manager will be hired to oversee the reclamation projects.

OMTI Report: OMTI Director Michael Reed submitted the FY2024 Training for October-March. Mr. Reed reported OMTI held 18 classes during the month of March including public classes in Wilburton, Sulphur, and online with more attendance in the Zoom classes. Private classes were held

in five different locations and accounted for 65% of the certificates issued in March. Contractors especially are scheduling private classes. Mr. Reed reported former Commissioner Matt Mercer is tentatively scheduled to speak at this year's health and safety conference in August. Mr. Reed reported that he has coordinated with ODM to receive notice of all newly issued permits. He then sends the company a letter letting them know what classes OMTI offers for their employees. Mr. Reed indicated OMTI continues to discuss the new power haulage rule implemented by the MSHA during training classes and noted he has received inquiries from contractors about it. There have been four fatalities reported in the United States, thus far, with three of them due to power haulage. The group briefly discussed the proposed federal rule to reduce silica dust standards.

Motion 4, Location and Time for June Commission Meeting: Chairman Klutts thanked Commissioner Krukowski for reaching out to various operators in hopes of planning a field trip to coincide with the summer Commission meeting. However, since a decision needs to be made today, Chairman Klutts indicated it would be better to not include a mine tour with the June meeting this year. The group can plan an outing for next year's summer meeting and have more time to work out the details. A motion was made by Vice Chairman Curtis and seconded by Secretary Helm to have the June 27 Commission meeting in Oklahoma City at 10:30 a.m. with no accompanying field trip. Roll call was made and the motion passed unanimously with seven (7) aye votes.

OKLAHOMA MINING COMMISSION JUNE 27, 2024 DIRECTOR SUZEN RODESNEY REPORT

LEGISLATIVE UPDATE:

SB1125 is the state agencies appropriation bills. The Department has been appropriated \$1,148,683 for FY25. This is \$303,750 more than FY24 appropriation. As requested, additional funds were for administrative services, a reclamation team leader, and salary adjustments for staff. A reduction of \$75,000 was made from the digitization project award in FY24. The agency will re-budget the balance of approximately \$40,000 into FY25 to complete this project.

SB1273 created a Blue River-Little Blue Creek Stream Health Assessment study. The Governor signed it and the agency will be monitoring in case we are asked for any input or data requests.

MODERNIZING EFFORTS:

The digitizing project is still ongoing. Regular file collection and delivery is occurring. Approximately 15% of the active minerals files have been digitized.

Bi-ANNUAL AUDIT:

The agency is still working with Auditor's office. I have some review to complete for further progress to occur.

PERSONNEL:

Priority will be to hire a reclamation construction project manager for the reclamation team. Goals will include getting an employee on board to attend the Health and Safety Conference in August.

OKLAHOMA STATE EMPLOYEE ENGAGEMENT SURVEY:

ODM staff were asked to complete a statewide survey to assess employee perceptions at work. Emphasis included measuring employee attitudes toward work climate and culture and satisfaction and engagement with various aspects of employment at Oklahoma state agencies. The Department of Mines recorded 91.1% positive rating in engagement; and a 97.5% positive rating for satisfaction.

COMMISSION UPDATES:

Commissioner Kurt Klutts was confirmed on 5-29-2024 by the Senate for another 7 year term with the Oklahoman Mining Commission. Commissioner Josh Haven was confirmed on 5-29-2024 as an Oklahoma Conservation Commissioner. He has tendered his resignation on the Oklahoma Mining Commission as a result. Mr. Havens occupied the seat allocated for agriculture/conservation.

EXECUTIVE ORDERS:

EXECUTIVE DEPARTMENT EXECUTIVE ORDER 2024-13

WHEREAS, eliminating barriers to economic development, breaking the red tape that hinders job creation, and expanding professional opportunities remain priorities for my administration; and

WHEREAS, increasing the efficiency in the processing and approval of state-issued permits will remove unnecessary barriers for those seeking to do business in Oklahoma.

NOW THEREFORE, I, J. Kevin Stitt, Governor of the State of Oklahoma, pursuant to the power and authority vested in me by Sections 1 and 2 of Article VI of the Oklahoma Constitution, and to the fullest extent permitted by law, hereby order as follows:

- 1. Each "state agency" (hereinafter "Agency") that issues permits shall compile an electronic catalog² of the types of permits it issues and electronically submit that catalog to the Executive Director of the Office of Management and Enterprise Services ("OMES") within ninety (90) days of the effective date of this Executive Order. At minimum, the catalog shall include:
 - a. A description of each type of permit issued by the Agency, the term thereof, and the statutory, regulatory, or other basis therefor;
 - b. The method by which the Agency receives applications for each type of permit (e.g., paper, electronic, etc.) and when that method was last significantly updated;
 - c. The statutory, regulatory, or other basis governing the length of time within which the Agency must process applications for each type of permit;
 - d. Any fee charged by the Agency for each type of permit and the statutory, regulatory, or other basis therefor;
 - e. For Calendar Year 2023, (1) the average number of days to process each type of permit application and (2) the total number of each type of permit submitted to the Agency; and, for Calendar Year 2024 YTD, the same; and

² An electronic catalog template will be distributed to Agency heads along with a copy of this Order.

- f. The Agency's recommendation of the appropriate length of time to promptly process "completed" applications for each type of permit issued by the Agency. Except as explicitly provided by law otherwise, an application shall be deemed completed for purposes of calculating appropriate processing times at the time the applicant submits all information required by the Agency to act upon the application.
- 2. Following receipt and review of an Agency's catalogs, historical analyses, and recommendations, the Director of OMES, in conjunction with the Office of the Governor, the State Chief Transformation and Information Officers, and all cabinet secretaries and chief advisors³ shall:

- 3. If an Agency exceeds the recommended application processing time, the Agency shall, unless otherwise prohibited by law, refund the full amount of the application fee to the applicant.
