PRESCRIPTIVE AUTHORITY RECOGNITION for the  
ADVANCED PRACTICE REGISTERED NURSE**

*Application Fee - \$85.00*

Use this application if:

- You are a Certified Nurse Practitioner, Clinical Nurse Specialist, or Certified Nurse Midwife applying for prescriptive authority in Oklahoma; and
- You have not held prescriptive authority recognition previously in Oklahoma.

**PLEASE READ THESE INSTRUCTIONS CAREFULLY  
BEFORE COMPLETING THE APPLICATION.**

Forms referenced can be found in the Forms/Applications area on the Board's website located at this link: <http://www.oklahoma.gov/nursing/forms.html>

The *Oklahoma Nursing Practice Act* requires current licensure as a Registered Nurse either through an Oklahoma single state RN license or an active multistate RN license from another Compact state with Oklahoma multistate licensure privilege AND as an Advanced Practice Registered Nurse with prescriptive authority recognition from the Oklahoma Board of Nursing *prior* to prescribing or ordering drugs or medical supplies or identifying oneself as an Advanced Practice Registered Nurse with prescriptive authority recognition.

- Please note that prescriptive authority recognition is specific to the advanced practice role (CNP, CNS, or CNM) and the specialty certification for which the APRN is licensed in Oklahoma. An Advanced Practice Registered Nurse with more than one advanced practice license or specialty certification must hold separate prescriptive authority recognition for each advanced practice license or specialty certification.

**REQUIREMENTS for PRESCRIPTIVE  
AUTHORITY RECOGNITION**

**Licensure and Advanced Practice Requirements:** Approval for prescriptive authority requires current Registered Nurse licensure with an Oklahoma single state RN license or an active multistate RN license from another Compact state with multistate privileges and Oklahoma licensure as a Certified Nurse Practitioner (CNP), Certified Nurse Midwife (CNM), or Clinical Nurse Specialist (CNS). The Advanced Practice Registered Nurse must hold a graduate degree at an advanced practice level, or a post-master's certificate at an advanced practice level if the master's degree is in nursing, in order to be eligible for initial application for prescriptive authority.

- Please note that you will only be able to submit an application for authority once your APRN license has been granted.

**Educational Preparation:** Prescriptive authority recognition may be granted to the applicant who holds current prescriptive authority in the same role in another state or territory and wishes to endorse that recognition/licensure into Oklahoma and to the applicant who has never held prescriptive authority recognition in another state or territory and is applying for initial recognition. Please review the two options below and act accordingly.

- 1) The Advanced Practice Registered Nurse applying for **endorsement** of prescriptive authority recognition into Oklahoma may be issued prescriptive authority recognition provided the applicant submits documentation verifying successful completion of a graduate level advanced practice registered nursing education program that included an academic course in pharmacotherapeutic management, and didactic and clinical preparation for prescribing incorporated throughout the program
  
- 2) The Advanced Practice Registered Nurse who has never been granted prescriptive authority recognition in another state or territory and is applying for **initial** prescriptive authority recognition must:
  - a. have completed an advanced practice registered nursing education program that included an academic course in pharmacotherapeutic management and didactic and clinical preparation for prescribing incorporated throughout the program.
  - b. submit documentation verifying completion of 45 contact hours of Category B continuing education or three academic credit hours of education (Category A) within the last three years immediately preceding the date of receipt of the application for prescriptive authority, in a course or courses in pharmacotherapeutic management that targets Advanced Practice Registered Nurses or individuals enrolled in an advanced practice registered nursing education program and/or other authorized prescribers. The three year time period may be waived if the applicant has graduated from the advanced practice education program within a time period of three years immediately preceding the date of the application for prescriptive authority and submits evidence that didactic and clinical preparation for prescribing was incorporated throughout the program.
  1. Continuing education equivalencies used are as follows:
 

One Contact Hour	=	50 Minutes
One Academic Semester Hour	=	15 Contact Hours
One Academic Quarter Hour	=	12.5 Contact Hours
  2. Category A education consists of academic credit hours at the advanced practice level earned in a college or university.
  3. Category B continuing education is defined in the *Rules of the Oklahoma Board of Nursing* [OAC 485: 10-16-1] as follows:
    - i) Onsite Seminar or lecture or workshop or course approved for contact hours, continuing education units or continuing medical education units through a recognized approver of continuing education; or

- ii) Online continuing education for initial applications must be approved through a recognized approver of continuing education, and includes a minimum of thirty hours obtained from a single provider that is faculty-directed, with processes for interaction of the participant with faculty, evaluating the participant's learning through successful completion of case studies or written assignments and a comprehensive examination using a mechanism to ensure security of the evaluation process.
4. Please note that only education earned in Category A or Category B can be used to establish eligibility for **initial** prescriptive authority recognition.

**Additional Requirements for Endorsement of prescriptive authority recognition from another state:**

In addition to meeting other requirements for endorsement established by the Board in the *Rules*, the applicant for endorsement of prescriptive authority recognition must demonstrate either of the following requirements within the last two (2) years prior to receipt of the completed application in the Board office:

- (A) Employment in a position that requires APRN prescriptive authority licensure or recognition with verification of at least 520 work hours; or
- (B) Documentation approved by the Board, verifying a minimum of fifteen (15) contact hours or one academic credit hour of education or the equivalent in pharmacotherapeutics and clinical application of use of pharmacological agents in the prevention of illness and in the restoration and maintenance of health, in a program approved by the Board that is more advanced than basic registered nurse preparation and that is applicable to the scope of practice and specialty certification

**Supervision by a Physician:** The applicant for prescriptive authority recognition must document (through submission of an *Agreement for Physician Supervising Advanced Practice Prescriptive Authority* form) supervision by a physician licensed to practice in Oklahoma by the State Board of Medical Licensure and Supervision or the State Board of Osteopathic Examiners. Supervision of an Advanced Practice Registered Nurse with prescriptive authority means “overseeing and accepting responsibility for the ordering and transmission by a Certified Nurse Practitioner, a Clinical Nurse Specialist, or a Certified Nurse Midwife of written, telephonic, electronic or oral prescriptions for drugs and other medical supplies, subject to a defined formulary” [59 O.S. § 567.3a.12].

**EXCEPTION** for APRN-CNPs, APRN-CNSs, and APRN-CNMs working **ONLY** at a Veterans Affairs facility, please see “Instructions for Completion of the Application”, #6A and #6B.

**DEA Registration:** The Advanced Practice Registered Nurse with prescriptive authority who prescribes Schedule III-V drugs will comply with state and Federal Drug Enforcement Administration (DEA) and Oklahoma Bureau of Narcotics and Dangerous Drug (OBNDD) requirements **prior to prescribing controlled substances**. Even after receiving DEA and OBNDD registration, the Advanced Practice Registered Nurse may not prescribe Schedule I or II drugs. Schedule III-V drugs may be prescribed for no more than a 30 day supply.

**Use of Formulary:** The Advanced Practice Registered Nurse with prescriptive authority recognition must refer to the *Exclusionary Formulary for Advanced Practice Nurses with Prescriptive Authority* (#P-50B) to identify medications that may **NOT** be prescribed or ordered. The current *Exclusionary Formulary* may be reviewed at:  
<http://www.oklahoma.gov/nursing/practice.html>

**Renewal Requirements:** Prescriptive authority must be renewed concurrently with Oklahoma Registered Nurse and Advanced Practice Registered Nurse renewals OR concurrent with the APRN-only Oklahoma license expiration date in even-numbered years.

- If you are applying for prescriptive authority recognition within 90 days prior to the expiration date of your Oklahoma RN/APRN license or your Oklahoma APRN-only license, you must renew your license prior to the date the prescriptive authority recognition is granted. The APRN with prescriptive authority must meet established requirements for continuing education to be eligible for renewal. Please see the *Oklahoma Nursing Practice Act* and *Rules* for renewal requirements.

**Review of criminal charges, disciplinary action, or judicial declaration of incompetence:**

State law (59 O.S. § 567.18.B.) requires each applicant for licensure to have a fingerprint-based background check completed not more than ninety (90) days old at the time of submission of the application for licensure. The background check consists of fingerprint-based searches of the Oklahoma State Bureau of Investigation (OSBI) and Federal Bureau of Investigation (FBI) Criminal History Record Information databases and name index searches of computerized databases containing criminal history records. Please read the *Privacy Act Statement and Applicant Notification* found in the Appendix to this set of instructions. Please see the “Instructions” section for further information on obtaining a fingerprint-based background check.

In addition to the background check, applicants for licensure are required to notify the Oklahoma Board of Nursing, in writing, specific information related to criminal charges and/or convictions, investigations, disciplinary actions, and/or judicial declaration of mental competence. A “report in writing” means that the applicant/licensee provided a description stating in his/her own words the date, location, and circumstances of the incident, and if applicable, the resulting action taken by the court, agency, or disciplinary board. The report should be in the form of a statement in the provided space on the application. Certified court records or a board order, as applicable, must be uploaded during the application process. A verbal report does not constitute a “report in writing”. A written report not accompanied by a full set of certified court records or the board order(s) does not constitute a “report in writing”. Failure to report such action is a violation of the *Oklahoma Nursing Practice Act*.
