BRINGING SPACE
DOWN TO EARTH.

Space Starts Here.

Welcome to the epicenter of aerospace innovation in Oklahoma. Infinity One is Oklahoma's suborbital spaceport and industrial park, equipped with the infrastructure, advanced communications, open space, qualified workforce, and supportive community needed to innovate in aerospace.

INFINITY ONE | BURNS FLAT, OK

It's Called Infinity One for a Reason.

Infinity One boasts an enormous 13,503' x 300' all-weather concrete runway equipped with ILS, REILS, and PAPIs, with a 1,000' asphalt overrun at each end. We didn't name it Infinity One, the FAA did.

INFINITY ONE
OKLAHOMA SPACEPORT

More Than a Runway.

Infinity One offers numerous attractive qualities and amenities for aerospace innovators seeking friendly skies, supportive community, and agile governance:

- Qualified to support **Reusable Launch Vehicle (RLV)** operations for both commercial and defense.
- Unique inland location and flight corridor provides access to a **high-inclination polar orbit (HIO)**.
- In addition to its renowned **13,503' x 300' runway**, Infinity One features a second, adjacent runway, measuring **5193' x 75'**.
- A **manned Air Traffic Control tower** ensures safe and efficient operations for all aircraft.
- A **full-service Fixed-Base Operator (FBO)** offers Jet-A fuel, aircraft repairs, and a wide range of other services to support aviation operations.
- **96 acres of concrete apron** for aircraft parking, storage, ground testing, assembly, and development.
- **Robust safety and security**, including 11+ miles of 7' high fencing extended with barbed wire, electronic access-controlled gates, and video surveillance.

THE FIRST OF ITS KIND.

Infinity One was the first-ever inland launch facility to receive a spaceport license from the FAA, opening up the gateway for non-coastal access to space. Located outside of any restricted airspace, this unique "Infinity One Corridor" provides unparalleled access and flexibility for launch and reentry.

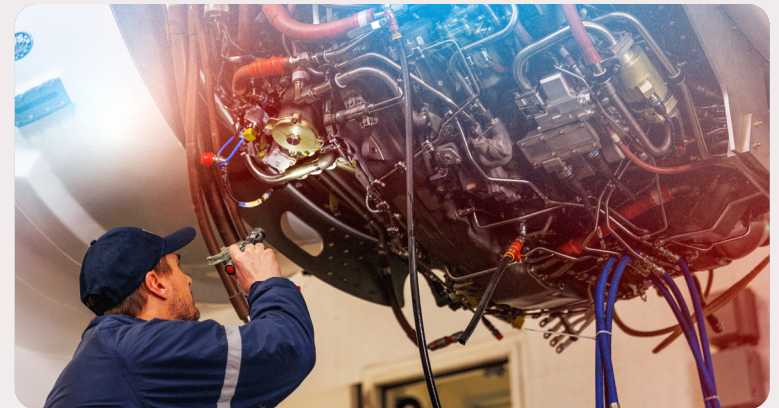

KEY TENANTS

1. Dawn Aerospace
2. Oklahoma Space Industry Development Authority
3. Lux Air Jet Centers FBO
4. Kratos Defense
5. Premium Aerospace Centers
6. Western Technology Center
7. Comanche County Memorial Health Center
8. The Greens Golf Course
9. Three Tees Grill
10. Space Engine Testing Facilities

The Future of Aerospace is at Infinity One.

Infinity One's 1,100-acre industrial park provides a prime location for aerospace businesses to grow and succeed. Take advantage of affordable land and buildings for lease, suitable for manufacturing, research and development, or office space. With fully constructed roads, water and wastewater systems, high-speed fiber Internet, and more, Infinity One is ready to go — **all we need is you.**

The Oklahoma Space Industry Development Authority (OSIDA) is the **single, statewide, unified governing body for space activity in our state**. Pro-business, agile, and experienced in the industry, OSIDA supports your vision and innovations. OSIDA's staff and Board of Directors governs with an entrepreneurial mindset, clearing obstacles and unnecessary bureaucracy to help ensure businesses feel supported, motivated, accelerated, and free to innovate. That difference — statewide, agile governance — has empowered Oklahoma and its aerospace partners to succeed where others have failed or fallen short.

<p>\$44B in Annual Aerospace & Defense Economic Impact</p>	<p>120,000+ Aerospace & Defense Professionals Statewide</p>	<p>11 Universities Offering Aerospace Degrees</p>
<p>Lowest Cost of Doing Business in America</p>	<p>~25% Lower Energy Costs Than National Average</p>	<p>#1 High School Aviation Curriculum (149 Participating Schools)</p>
<p>4th Lowest Corporate Tax Rate in the United States</p>		

Additional Highlights:

- **#1 Doctoral Program** for Unmanned Aircraft Systems (UAS)
- **Nine Specialized Aerospace Training Centers** (CareerTech)
- **Top-Ranked Aviation University** (University of Oklahoma)
- **Right-to-Work State** Ensures Flexible, Stable Labor Climate
- **Numerous Tax Credits, Rebates, Grants, and Exemptions**

WESTERN OKLAHOMA :

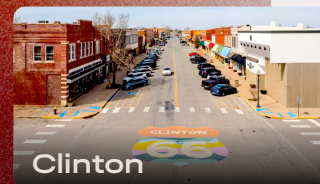

The Aerospace Frontier.

For all the talk of big empty spaces and room to innovate, Infinity One also boasts plenty of quality of life perks for businesses and residents alike. The community of Burns Flat features local restaurants, schools, and sports, as well as important amenities like the Burns Flat Community Health Center, The Greens Golf Course, and Three Tee's Bar & Grill.

Right along Historic Route 66, Elk City is home to numerous museums, beautiful parks, Elk City Lake, great spots to play golf and disc golf, participate in motorsports, and attend competitive rodeos. Elk City's local restaurants and affordable housing make for a beautiful, charming place to raise a family, build your forever home, or have a great time, and it's a short 20-mile commute to Infinity One.

Just 16 miles from Infinity One, Clinton is known as the "Hub City of Western Oklahoma," and with attractions like the Oklahoma Route 66 Museum, a year-round Water-Zoo Indoor Waterpark, Lucky Star Casino, McLain Rogers Park, Riverside Golf Course, and Acme Brick Park, there's plenty to keep you coming back to Clinton again and again.

Home to Southwestern Oklahoma State University (SWOSU), Weatherford is a thriving college town with night life, great schools, local art, museums, and culture. Visit the Stafford Air & Space Museum, the Oklahoma Heartland Museum, and so much more, and see if Weatherford's short 30 mile commute to Infinity One is right for your family.

Infinity One is located just two hours west of Oklahoma City, one of the fastest-growing and largest cities in the United States, so when you're ready for NBA championship basketball, James Beard award-winning chef cuisine, world-class art museums and theater, or just a change of pace and scenery, OKC is ready to welcome you.
