Re: Glover, Case No. C-2024-378

Dear Director Crotty:

This office has received your request for a written Attorney General Opinion regarding action that the Oklahoma Real Estate Commission (“Commission”) intends to take with respect to Rossi Glover (“Respondent”). Respondent holds license number 200121, issued by the Commission.

The Oklahoma Real Estate License Code (“Code”) authorizes the Commission to impose sanctions, including revocation, on a licensee who “disregard[s] or violat[es] any provision of the [Code] or rules promulgated by the Commission.” 59 O.S.2021, § 858-312(9). Specifically, Respondent failed to respond to the Commission in writing within fifteen (15) days of receipt of a Notice of Complaint. 59 O.S., § 858-312(26).

After a hearing on September 25, 2025, the Commission proposes to reprimand Respondent for failing to respond to the Commission in writing and place Respondent on probation for one (1) calendar year from the date of the final Commission Order. Respondent is further ordered to complete ten (10) additional hours of continuing education in addition to those already required for maintaining her real estate license, within 180 days of the final order.

It is, therefore, the official opinion of the Attorney General that the Commission has adequate support for the conclusion that this action advances the State’s policy to uphold standards of professionalism among real estate licensees.
