## Oklahoma's Innovation Model

Through its network of strategic partners, OCAST creates a continuum of services that enables and accelerates the translation of ideas from the laboratory to the marketplace. It is through this continuum of services that we are able to accelerate, grow and diversify Oklahoma's economy.

Oklahoma's only agency with the sole focus of technology-based economic development.

Oklahoma's private nonprofit entity focused on promoting innovation and providing technical assistance to the state's manufacturing community.

Oklahoma's private nonprofit entity focused on investing in entrepreneurs to build successful, high-growth companies.

A public-private collaboration administered by Oklahoma State University focused on the development and commercialization of new products.
