

Markets and Operations Policy Committee Meeting

July 14, 2026: 8:00 a.m. to 5:00 p.m. CT | July 15, 2026: 8:00 a.m. to 12:00 p.m. CT

Skirvin Hilton – Oklahoma City, Oklahoma

AGENDA

Agenda items may be taken out of order and could conclude earlier or later than estimated time. MOPC may act on any agenda items, including informational.

B Will go to Board of Directors for review or approval

R Will go to Regional State Committee for review or approval

Removing any consent agenda items and any amendments to suggested motions are strongly encouraged to be vetted with MOPC leadership at least one week prior to the MOPC.

ADMINISTRATIVE

1. Chair Joe Lang (OPPD) called the meeting to order at 8:03 a.m. CT on Tuesday, July 14. MOPC staff secretary assistant Michael Daly (SPP) reviewed administrative items, including the new members, meeting information, proxies, action items, Robert's Rules of Order reminders, revision request summary, and draft motions.

APPROVAL ITEMS (2-6)

Chair Joe Lang presented the consent agenda for approval and asked for any items to be removed. Matt Caves (Western Farmers Electric Cooperative) requested the removal of the two CHILLs related revision requests, specifically RR767 and RR768. Chair Lang agreed to the removal and called for a motion. *Jared Cooley (Xcel Energy Southwest Transmission Company, LLC) moved, and Heather Starnes (Proxy for Russell Cornelius Hope Water and Light Commission) seconded, to approve the consent agenda as amended removing RRs 767 and 768.* The motion passed with 100% approval.

2. Consent Agenda Joe Lang (OPPD)
 - a. **Past Meeting Minutes**
 - i. April 2026 Meeting Minutes
 - b. **Economic Studies Working Group**
 - i. ITP Manual Waiver—2026 ITP Market Economic Model Benchmarking
 - c. **Market Working Group**
 - i. RR754 — Order 719 LSE Attestation Clarification (RTWG)
 - ii. RR761 — Resource Deregistration and Modification (RTWG)
 - iii. RR766 — Affiliate Designation Requirements (RTWG)
 - iv. RR767 — CHILL Clarifications (ORWG, RTWG)
 - v. RR768 — CHILL Outage Criteria (ORWG, RTWG)
 - vi. RR771 — DRR Outages and Derate Guidelines (ORWG, SAWG)
 - vii. RR773 — MSR Calibration Enhancement (RTWG)

viii. RR774 — POI Constraints and Clipping (ORWG, RTWG)

d. Operating Reliability Working Group

- B** i. RR778 — Operations Documentation Updates for CHILLs (SAWG, TWG)
- ii. RR779 — Economic Topology Optimization Need Consideration (ESWG, TWG)

e. Project Cost Working Group

- B** i. Q3 2026 In-Service Date Delay Recommendation
- B** ii. Belfield – Roundup 345 kV Out of Bandwidth (BEPC/WAPA)
- B** iii. Diana & SW Shreveport Out of Bandwidth STATCOMS (AEP)
- B** iv. Ozark Dam – Forsyth North - Ozark South 161 kV Out of Bandwidth (EDE)
- B** v. Ozark Dam – Branson North 161 kV Rebuild Out of Bandwidth (EDE)
- B** vi. XFR – Phantom 345/115 kV Transformer and Capacitor Banks Out of Bandwidth (SPS)
- vii. RR756 — Minimum Transmission Design Standards (ORWG, TWG)

f. Regional Tariff Working Group

- i. RR782 — Reassess Schedule 1-A Rate Template (MWG)

g. Staff

- i. Hesperus-Glade Overcurrent Remedial Action Scheme (ORWG, TWG, SPCAG)
- ii. RR769 — RR Process Update to Remove SPP Communications Protocol (ESWG, MWG, ORWG, PCWG, RTWG, SAWG, TWG)

h. Economic Studies Working Group / Transmission Working Group

- i. RR770 — Load Forecast Alignment for Long Term Planning
- ii. RR776 — CPP Manual Clean Up
- iii. RR777 — Aging Infrastructure Language Clarifications
- iv. 2027 ITP Sunset and West Expansion Transition Assessment Scope

i. Transmission Working Group

- i. RR755 — SPP GI EMT Study Process (RTWG)
- ii. RR764 — SPP Generating Facilities Modeling Requirements (MWG, ORWG, RTWG, MDAG)
- iii. RR765 — Provisional Load Process Improvements (MWG, ORWG, RTWG)
- iv. RR775 — IEEE 2800 Phase 2 Additions to Attachment AY (RTWG)
- R** v. RR780 — Aggregate Transmission Service Study Improvements (RTWG, CAWG)
- vi. RR783 — Modification Request Impact Study (MRIS) Methodology Tariff Alignment (GIAG)
- B** vii. SUS-046 SPS Sidewinder 345 kV Rerouting

3. Supply Adequacy Working Group

Charles Hendrix (SPP) presented RR784 to the committee which effectuates the tariff changes to implement the 2030 and 2032 Planning Reserve Margin (PRM). In May 2026, the SPP Board of Directors and the Regional State Committee approved the values of 17% for Summer and 38% for Winter for these two planning years. He noted that section 4 of the Planning Criteria would be updated with these values. *Steve Gaw (Advanced Power Alliance)*

moved, and Mo Awad (Evergy Kansas South, Inc.) seconded, to approve RR784 – 2030 + 2032 Planning Reserve Margin. The motion passed with 100% approval.

4. Economic Studies Working Group / Transmission Working Group

Sunny Raheem (SPP) presented RR786 CPP Governing Language Clarifications to the committee. This proposed revision request: a.) establishes a separate regional and subregional Generalized Rates for Interconnection Development (GRID-C) Contribution from the SPP East Region; b.) defines separate regional and subregional Generalized Rates for Interconnection Development (GRID-C) Contribution from the SPP East Region; and c.) establishes a distribution of GRID Contribution revenue to west Subregions. He noted that without this change in language the CPP study timing would add approximately 8 months of transition time to the GIA timeline, and GRID-C payments would not include subregional distribution for the Western Interconnection. *Temujin Roach (EDF power solutions Development, Inc.) moved, and Steve Sanders (Western Area Power Administration-Upper Great Plains Region) seconded, to approve RR786 (SIR845) CPP Governing Language Clarifications as presented and contingent upon RSC approval.*

Dennis Florom (Lincoln Electric System) moved, and Mike Wise (Golden Spread Electric Cooperative) seconded, to amend the previous motion by adding the words “with the exception of the recommendation and language placing the Eastern Interconnection area of the LAP Zone into the Nebraska Subregion, moving the decision to the RSC for this area without a recommendation from the MOPC” after the word clarification and striking the words “as presented and contingent upon RSC approval” from the original motion. The motion to amend the previous motion failed with only 65% voting in favor. The committee then voted on the original motion, and it passed with 96% approval.

5. Transmission Working Group

a. RR763 DPP Incentive Point Criteria

Casey Cathey (SPP) presented RR763 DPP Selection Revision to the committee. The drivers for this proposal include a large volume of Detailed Project Proposals to process and validate, and a directive from the Order 1000 task force to staff to evaluate opportunities to improve the incentive point process. *Adam Snapp (OGE Transmission) moved, and Heather Starnes (Proxy for Russell Cornelius Hope Water and Light Commission) seconded, to approve RR763 Detailed Project Proposal (DPP) Incentive Points Determination Business Practice 7650 as presented. The motion passed with 92% approval.*

b. ITP Waiver - 2026 ITP and CPP Transition Assessment LGIM F2Y20

Kirk Hall (SPP) presented the need for an ITP Wavier related to the 2026 ITP and CPP Transition Assessment. Specifically, the Transmission Working Group and Economic Studies Working Group requested the committee approve the invalidation of the Local Generator Interconnection Models (L-GIM) needs meant to assess system stability in Future 2 Year 20 from the portfolio development process. Additionally, this proposed change will minimize the impacts of extreme sub-regional exports in the L-GIM model series. *Adam Snapp (OGE Transmission) moved, and Katy Onnen (Evergy Kansas Central, Inc.) seconded, to invalidate*

2026 ITP and CPP Transition Assessment Future 2 Year-20 L-GIM proxy stability needs due to unrealistic model assumptions. The motion passed with 99% approval.

02.c.iv RR767 — CHILL Clarifications

Seth Mayfield (SPP) presented RR767 CHILL Clarifications to the committee. This proposed revision request ensures CHILL-related commitments and curtailments are clearly defined, operationally feasible, and appropriately sequenced. Additionally, this proposal lowers the risk of CHILLs failing to curtail when instructed and provides market transparency while also helping to ensure market reliability. *Jim Flucke (Evergy Metro, Inc.) moved, and Heather Starnes (Proxy for Russell Cornelius Hope Water and Light Commission) seconded, to approve RR767 CHILL Clarifications as presented.* The motion passed with 99% approval.

02.c.v RR768 — CHILL Outage Criteria

Seth Mayfield (SPP) presented RR768 CHILL Outage Criteria to the committee. This proposed revision request accommodates planned generator outages supporting a conditional high impact large load (CHILL). He noted that SPP will retain the ability to curtail a CHILL for system reliability. *Jim Flucke (Evergy Metro, Inc.) moved, and Jarred Cooley (Xcel Southwestern Public Service Company) seconded, to approve RR768 CHILL Outage Criteria as presented.* The motion passed with 99% approval.

INFORMATIONAL (6-19)

6. Operating Reliability Working Group

Yasser Bahbaz (SPP) reported on the implementation of FERC Order 881 to the committee. He noted the continued progress on software development, systems integration, member readiness, and regulatory activities supporting the proposed April 1, 2027, implementation date. He explained that SPP continues to support an April 2027 implementation because member readiness data indicates that most transmission assets will be prepared, earlier implementation will accelerate reliability and market efficiency benefits, and the schedule avoids conflicts with other major system projects.

7. Staff

Kirk Hall (SPP) reviewed the progress on the 2026 ITP and CPP Transition Assessment, the 2027 ITP and RTO Expansion transition activities, and initial work on the 2028 CPP-10 study for the committee. He noted ongoing portfolio development, increasing transmission planning needs driven by significant load growth, continued evaluation of a 765 kV transmission backbone, and the importance of stakeholder collaboration in providing project feasibility and cost information.

8. CARE Team

Kayla Hahn and Steve Wright (Co-Chairs) updated the committee on the activities of the Cost Control and Allocation Review Evaluation (CARE) team. Particularly, they highlighted the group's ongoing work to develop recommendations addressing cost allocation, large-

load cost responsibility, and cost containment for the extra-high-voltage transmission overlay. They also reviewed the emerging policy directions informed by stakeholder outreach and polling, including transmission cost allocation approaches, protections against stranded costs, treatment of large loads, and enhancements to project cost transparency and reporting.

B 9. Project Cost Working Group

Kirk Hall (SPP) provided a brief update regarding the Redbud–Mathewson 345 kV transmission project, which had been referred to SPP staff by the Project Cost Working Group (PCWG) after the project's estimated cost exceeded the established cost cap and guaranteed in-service date bandwidth. Hall explained that, after reviewing the PCWG recommendation, SPP staff agreed the project warrants further evaluation to confirm that it continues to provide sufficient economic value for the region within the context of the 2026 Integrated Transmission Planning (ITP) process.

10. Staff

Ryan Ziegler (SPP) provided the Quarterly Operations Update, which reviewed the outlook for the remainder of the 2026 summer season and reported that system operations have remained stable to date. He noted current weather, drought, and capacity conditions across the SPP footprint, including continued monitoring of hydro generation availability, and expressing confidence that available resources are sufficient to meet anticipated summer reliability needs. Ryan also presented an update on operations following the Western RTO expansion, describing continued progress in refining operational processes, forecasting methodologies, and coordination as experience is gained with the expanded balancing authority area.

11. Staff

Austin Morman (SPP) provided the GI Quarterly Update to the committee. He noted continued progress in reducing the interconnection study backlog and advancing projects through the DISIS and ERAS processes. He reviewed recent study activity, execution of a record number of Generation Interconnection Agreements, ongoing oversight of projects in the interconnection pipeline, and efforts to improve study efficiency through the DISIS 2024 Phase 1 restudy process. He pointed out upcoming study milestones and the progress toward transitioning to future Consolidated Planning Process (CPP) generation interconnection models.

12. Staff

Clint Savoy (SPP) updated the committee on Seams Planning activities. He pointed out the progress on the MISO-SPP Coordinated System Plan, the AECI-SPP Joint and Coordinated System Plan, the Missouri Multi-Entity New Transmission (MoMENT) initiative, and the newly established Seams Planning organization.

13. Staff

Sunny Raheem (SPP) presented a proposed High Priority Transfer Capability Expansion Study intended to evaluate opportunities to increase transfer capability between the

Eastern and Western Interconnections and establish a technical foundation for future transmission planning and policy decisions. He reviewed the strategic need for the study, citing increasing load growth, changing power flows, existing transfer constraints, and market data indicating potential reliability and economic benefits from expanded transfer capability.

14. Staff

Carrie Dixon and Natasha Henderson (SPP) provided the Price Adaptive Load Service (PALS) Design Update to the committee. PALS is a new market and transmission service concept intended to support flexible, price-responsive loads that can adjust consumption based on market conditions. They reviewed the proposed market participation model, transmission service framework, reliability safeguards, resource adequacy treatment, and potential benefits of improving system utilization while creating additional flexibility for non-firm load participation. They also pointed out how the proposal relates to ongoing stakeholder efforts addressing large load integration and FERC's Large Load Show Cause Order, noting that PALS is being developed through the stakeholder process as a potential service option for flexible loads.

15. Staff

Seth Mayfield (SPP) provided an informational update on an expedited FERC filing to correct a formulaic error in the Transmission Congestion Rights (TCR) shortfall calculation that was identified following implementation of the Western RTO expansion. He explained that the error understated Day-Ahead congestion revenues, resulting in an unintended allocation of market charges between TCR holders and other Integrated Marketplace participants. He reviewed the proposed Tariff revisions and stressed that the changes are intended to restore the calculation to the Board-approved policy as well as accurately allocate settlement amounts without changing the underlying policy.

16. Staff

Kevin Bryant (SPP) provided the committee with an update on 2027-2031 Strategic Plan that was recently approved by the Board of Directors. He summarized the strategic imperatives focused on reliability and affordability, energy development, interregional connectivity, and organizational excellence, along with associated measures of success and implementation milestones. He pointed out that the strategic plan aligns planning, execution, and performance management to support reliable, cost-effective service while responding to evolving industry challenges and opportunities.

To address the strategic imperative related to Leading on Reliability and Affordability, Casey Cathey (SPP) introduced Brooke Keene (SPP) to speak more about Intermediate Planning. She described this new planning process and how it will help bridge the gap between real-time operations and long-term transmission planning by identifying near-term reliability risks and cost-effective transmission solutions. She reviewed the objectives of the process, distinctions between SPP-initiated and customer-sponsored studies, and examples

illustrating how targeted, lower-cost upgrades could provide operational and economic benefits while larger transmission projects are being developed.

17. Staff

Michael Daly (SPP) shared an update on the Stakeholder Process Enhancement initiative, summarizing feedback gathered through interviews with Corporate Governance Committee(CGC) members, working group chairs, and MOPC leadership regarding potential improvements to SPP's governance processes. He pointed out that the CGC endorsed further development on three items: a.) a framework for fast-tracking high-priority revision requests and policy initiatives; b.) amending the Revision Request process to efficiently streamline stakeholder review while maintaining opportunities for collaboration and input; and c.) removing affiliate votes from the committee.

18. Staff

Paul Suskie (SPP) provided an update on FERC's Show Cause Order regarding large loads. He outlined Commission's preliminary findings and the potential implications for SPP's Tariff and stakeholder processes. He reviewed the four areas identified by the Commission for further evaluation, including transmission service provisions, transparency related to transmission costs and cost shifting, co-location frameworks, and transmission service options for flexible large loads. He presented the planned approach to evaluating potential Tariff revisions and demonstrated how existing and proposed initiatives address the Commission's concerns while continuing stakeholder engagement.

19. Staff

Antoine Lucas (SPP) shared the forecast of policy initiatives the committee can expect to consider in upcoming quarterly meetings. He asked members to follow up with him and Michael Daly if there were initiatives they expected to see that were not listed.

WRITTEN REPORTS (20-35)

Chair Joe Lang acknowledged the written reports submitted and asked members for any questions regarding them. No questions were asked.

20. **Market Working Group** Action Item Update and RR Impact SummaryJim Flucke (Evergy)

21. **Market Working Group** Market Work PlanJim Flucke (Evergy)

CLOSING (36-38)

36. **Review New Action Items**

Michael Daly (SPP) noted that no new action items were taken during the meeting.

37. **Reminders and Future Meetings**

Antoine Lucas (SPP) reminded committee members that if they wished to include any comments related to an approval item for inclusion in its respective RR report or recommendation to the Board of Directors (if applicable), to please send them to [Antoine Lucas](#) and [Michael Daly](#) by close of business on Thursday, July 16, 2026.

Additionally, he encouraged committee member to please notify [Michael Daly](#) if any company’s MOPC representative changes.

He also noted the [next MOPC meeting](#) would be in Little Rock, Arkansas, on October 13-14.

38. **Adjournment**

Joe Lang (OPPD) adjourned the meeting at 9:39 a.m. CT on Wednesday morning, July 15.

Respectfully submitted,

Michael Daly on behalf of Antoine Lucas, Staff Secretary
