NOTICE OF INTENT TO CONSTRUCT

In order to comply with the requirements of title 17 O.S. §160.11 et. seq., and the rules promulgated by the Oklahoma Corporation Commission (“Commission”) and adopted by the Commissioners on March 15, 2016, Great Western Wind Energy, LLC, a Delaware limited liability company (the “Company”) hereby informs the Commission of its intent to construct the Great Western wind energy project (the “Project”) located in Woodward and Ellis Counties, Oklahoma.

Please be advised that the initial FAA form 7460-1 filings were made on February 4, 2016 for 93 turbines included in the Project, as well as for 10 alternative turbine sites (“Alternative Turbines”) and for additional turbines that could be a part of a potential second phase of the Project (“Potential Second Phase Turbines”). A summary of the FAA form 7460-1 filings for these turbine tower locations is attached hereto as Exhibit A. The Company has no current designs or plans to install any of the Alternative Turbines or the Potential Second Phase Turbines. In the event any such designs and plans are developed, the Company will provide notice of the same to the Commission.

In addition to the foregoing, attached hereto as Exhibit B is a map of the Project, which shows the real estate included and evaluated in connection with the statutory setback requirements set forth in 17 O.S. §160.20. Based on information made available to the public, the Company attests that on the date of this notice, the Project design complies with the setbacks required by title 17 O.S. §160.20.

The Company further confirms that it shall submit a copy of this letter and all Exhibits to the Ellis County and Woodward County Board of Commissioners within the time period set forth in title 17 O.S. §160.21(A). None of the Project facilities are located within an incorporated area of a municipality such that no additional notice is required under title 17 O.S. §160.21(A).

Please do not hesitate to contact us at (801) 631-2666 with any questions regarding this submission.

Sincerely,

Greg Probst
