Bridget Acland
NextEra Energy
700 Universe Blvd
Juno Beach, FL 33408

Subject: Mission Compatibility Certification Letter / ASNs: 2024-WTW-4850-OE to 2024-WTW-4966-OE

Dear Mrs. Acland,

The Military Aviation and Installation Assurance Siting Clearinghouse (Clearinghouse) has reviewed the Mammoth Plains wind farm repower project in Oakwood, Oklahoma. A mitigation agreement is in coordination between the Department of Defense (DoD), the Department of the Air Force, and NextEra to resolve concerns related to the project's potential impacts on military operations and readiness. In light of this agreement, the Clearinghouse found no adverse impacts to DoD missions in the area and has entered a determination of "No Objection with Provision" via the Federal Aviation Administration's (FAA) Obstruction Evaluation / Airport Airspace Analysis system.

Our response to the FAA included a notification that additional or taller structures which encroach upon radar line of sight may result in mission impacts that warrant further study.

We encourage you to consult DoD well in advance of any expansion. If you have any questions, I can be reached at robbin.e.beard.civ@mail.mil.

Sincerely,

A handwritten signature in blue ink that reads "Robbin E. Beard".

Robbin E. Beard
Deputy Director
Military Aviation and Installation
Assurance Siting Clearinghouse
