RE: Notification for Repower / Refurbishment – Little Elk Wind Project, LLC.

In accordance with OAC 165:35-45-7(c)(1), we are providing notice to the PUD Director of the planned activities associated with the repowering and refurbishment of the existing wind energy facility known as the Little Elk Wind Project, located in Washita and Kiowa Counties.

In accordance with OAC 165:35-45-7(c)(2), we confirm that there will be no changes to the turbines that would trigger a requirement for new or updated forms to the FAA, Oklahoma Aeronautics Commission, or Strategic Military Planning.

In accordance with OAC 165:35-45-7(c)(3), we submit the following specifics regarding the proposed repowering activities:

- **Turbine Manufacturer:** No change (existing: Vestas)
- **Turbine Model:** No change (existing: V110-2.0MW)
- **Turbine Updates:** Limited to components, including gearboxes, yaw motors, and blade bearings
- **Foundations:** Existing turbine foundations will be utilized; work will consist of installing foundation collars to improve reliability and serviceability
- **Capacity:** No change

In addition, we are including as Exhibit A a map which provides the location of the turbines associated with Little Elk Wind Project, each of which will be updated in the proposed repowering.

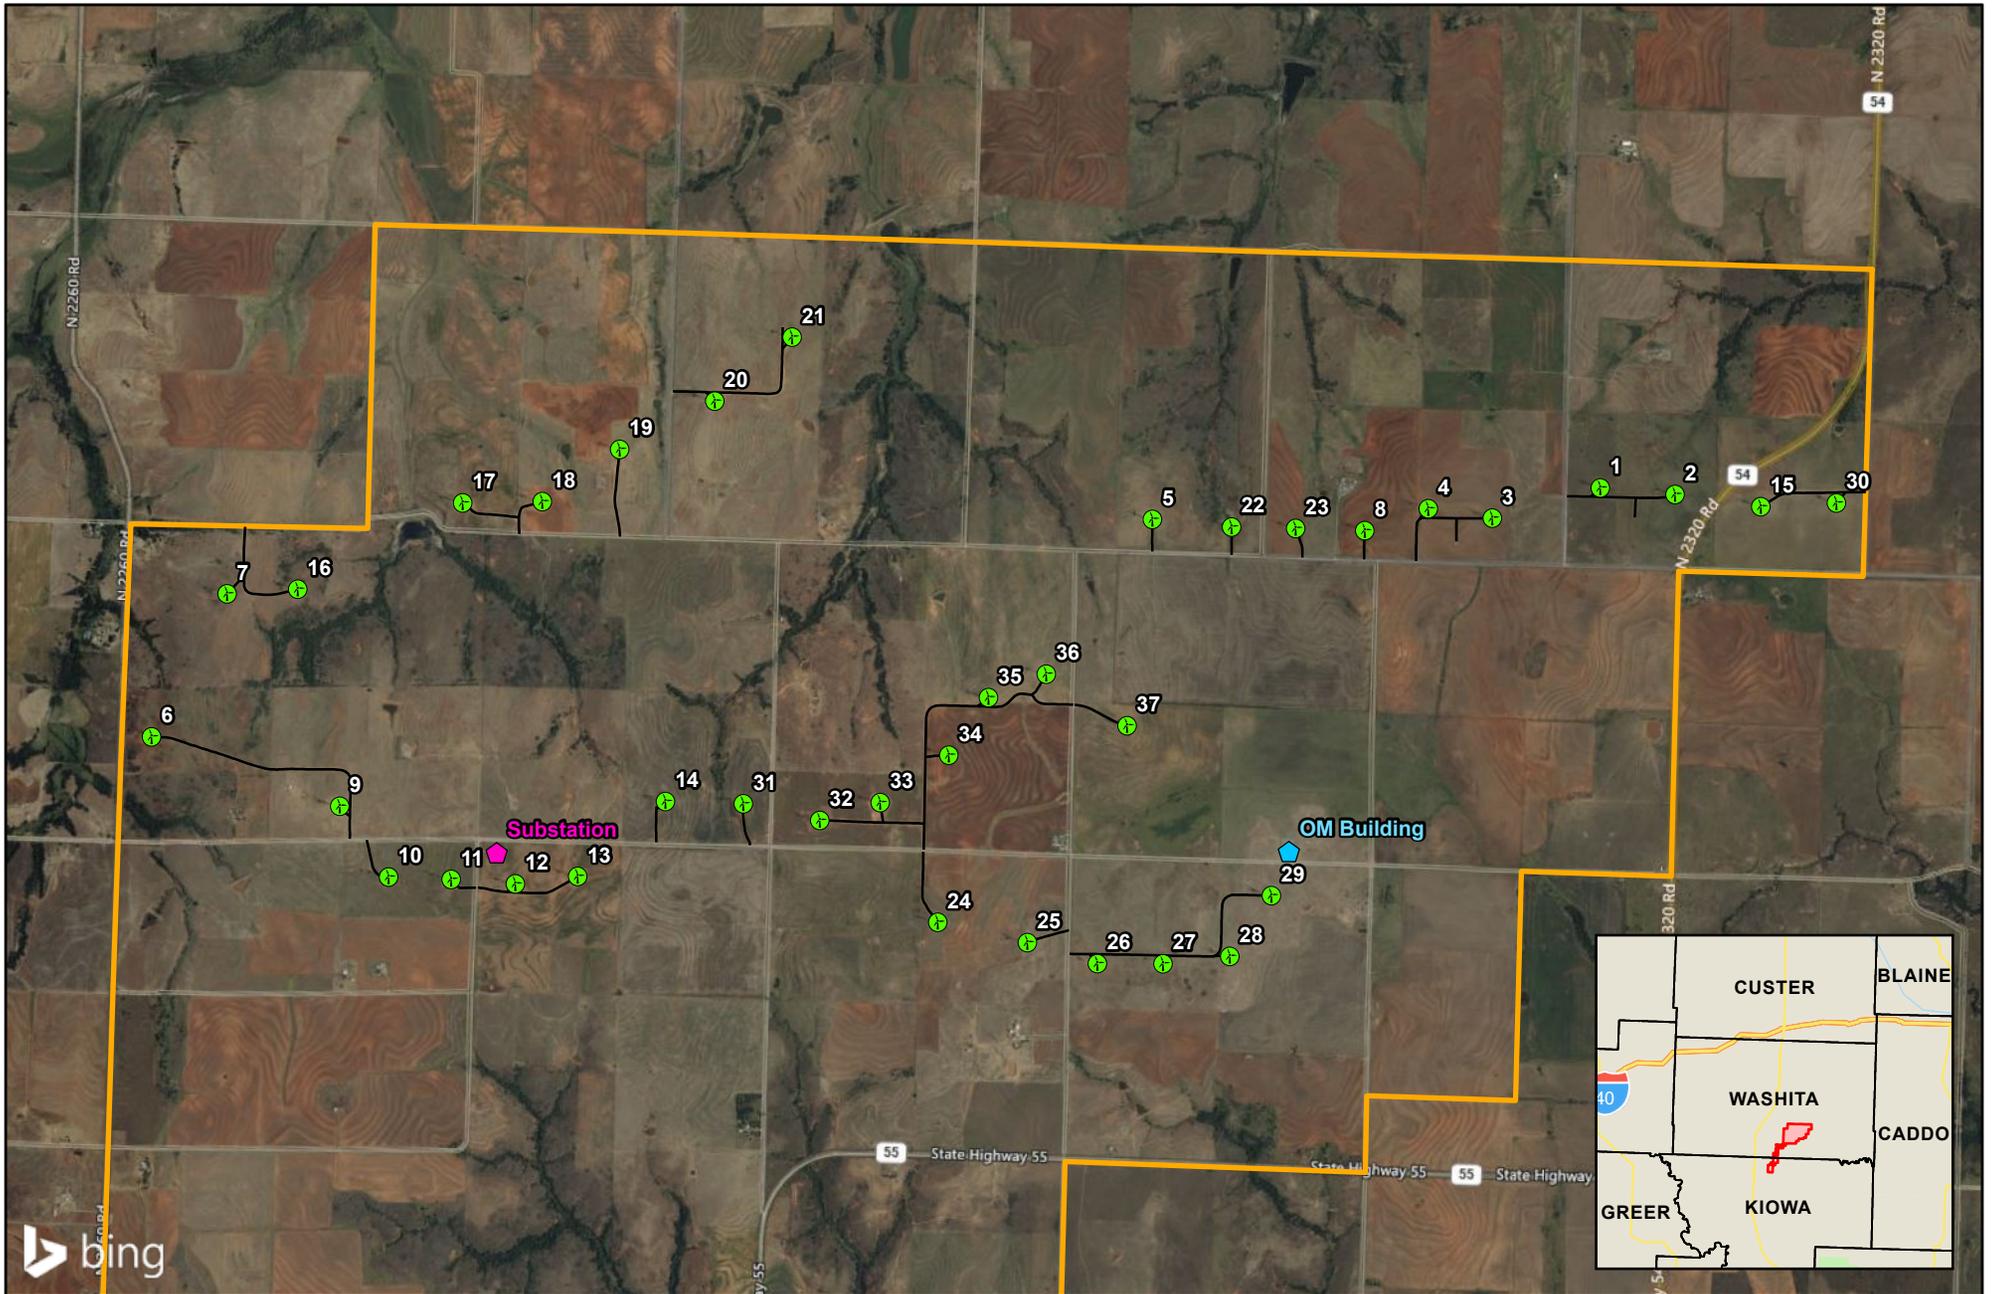

Please feel free to contact us with any questions regarding this notification.

Sincerely,

Anicia Soares
Director Environmental and Permitting
Anicia.soares@enel.com
