[Title 10A, Section 1-6-105, B, of the Oklahoma Statutes, authorizes disclosure of information concerning the circumstances of the investigation of a child's death within three years of the death; therefore, the information provided below is within the three-year time period.]

First Report Alleging Abuse/Neglect Received by the OKDHS (August 28, 2009)

The OKDHS received the first report regarding Jakori Nabors on August 28, 2009. The reporter stated that the child's mother, Brittiany Nabors, had reported that Jakori had fallen when he tried to pull up on a bed. According to the reporter, Nabors and the mother's friend had taken Jakori to a hospital emergency room around 10:00 p.m., and the child had presented at the hospital with a depressed skull fracture. Reportedly, the doctor suspected child abuse, and law enforcement and the OKDHS were contacted.

The OKDHS accepted the report as a Priority I investigation. The OKDHS worker documented that on August 29, 2009, she had observed Jakori in the hospital and had made contact with the child's mother. According to OKDHS documentation, Brittiany Nabors had confessed to law enforcement that she had shaken Jakori on three occasions and that she had hit his head on a bar in the footrest of a reclining couch on two occasions.

OKDHS documentation indicated that a seventeen-year-old OKDHS-custody juvenile, who was a runaway, was living in the home with Brittiany Nabors and her child Jakori.

The OKDHS made an overall finding of Confirmed-Court Intervention Requested as to Brittiany Nabors regarding the allegation of Abuse-Near Death of Jakori Nabors. The injuries and/or allegations documented were head trauma; shaking, resulting in a subdural hematoma; multiple rib fractures; retinal hemorrhages; and beating, resulting in multiple skull fractures. Brittiany Nabors remained in the Oklahoma County jail at that time.

Additionally, the OKDHS made a finding that the physical abuse to Jakori was heinous and shocking. The OKDHS recommended that the district attorney's office file a petition to terminate the parental rights of Brittiany Nabors.

(As of January 19, 2010, the OKDHS referral that resulted from the report to the OKDHS on August 28, 2009, was in pending status, as the OKDHS was awaiting the Office of the Chief Medical Examiner's report regarding the death of Jakori.)

#### Second Report Alleging Abuse/Neglect Received by the OKDHS (August 29, 2009)

The OKDHS received a report on August 29, 2009, at 7:40 a.m., regarding the other people living in the same house as Brittiany Nabors and her son Jakori. The reporter had stated that an OKDHS-custody youth, age seventeen, had been transported that morning by law enforcement to a local shelter as the youth was absent without leave (AWOL) from placement.

#### Third Report Alleging Abuse/Neglect Received by the OKDHS (August 29, 2009)

The OKDHS received a report on August 29, 2009, duplicating the information it had received the previous day. Because it was a duplication, OKDHS screened out the report without investigation.

#### Fourth Report Alleging Abuse/Neglect Received by the OKDHS (August 31, 2009)

The OKDHS received a fourth report on August 31, 2009, regarding other members of the home in which Brittiany Nabors and her son Jakori lived at the time the child was hospitalized. This report involved the roommates' children and was a companion report to the report received by the OKDHS on August 28, 2009, regarding Jakori.

The reporter stated that a male and female rented the house where Brittiany and Jakori Nabors resided, and that the renters had two children, ages three and ten months, who also lived in the home. The reporter stated that allegedly the roommates had been aware that Brittiany Nabors had physically abused her son Jakori.

The OKDHS accepted the report as a Priority I investigation. The OKDHS investigated the allegations of Neglect-Threat of Harm to the couple's two biological children. The OKDHS made a finding of Services Recommended. The OKDHS documented that it appeared the roommates were unaware that Brittiany Nabors had been physically abusing Jakori. The OKDHS documented that the roommates had believed that Jakori was sick and had encouraged Nabors to seek medical attention for the child, but that Nabors had not done so. The OKDHS referred the couple for parenting classes to help with their own children and to recognize abuse. The couple reported that if Nabors was released from jail that they would not allow her back in their home. The OKDHS closed the case on November 30, 2009.

#### Fifth Report Alleging Abuse/Neglect Received by the OKDHS (September 7, 2009)

The OKDHS received a fifth report on September 7, 2009, informing that Jakori Nabors had died the previous day in the hospital as a result of injuries sustained on August 28, 2009.

The OKDHS screened-out the referral without investigation. The OKDHS documented the report as a duplication. OKDHS documentation indicated that the OKDHS supervisor was notified of the child's death on September 7, 2009.
