The second report was received by OKDHS on December 7, 2010, at 3:30 p.m. Reportedly, Christian had been ill and vomited the previous night. The report documented he was finally able to keep juice down in his stomach. Christian and his mother took a nap in the mother's bed. The mother's boyfriend who was a jailer for the sheriff's office came home and went to sleep on the couch in the living room. Reportedly, the mother's boyfriend Joshua woke up and checked on the mother and Christian. Joshua observed a small trail of blood from Christian's mouth. Joshua turned Christian over and vomit came out of his mouth. It was documented at that time it was believed that Christian asphyxiated on his own vomit.

The OKDHS accepted this report as a Priority I investigation. The OKDHS made timely contact with the victim, siblings, mother, and biological father. The OKDHS documented that while the mother was at the store Christian Norris and Sibling 2 were left in the care of her live-in boyfriend Joshua Benton.

### Third Report to the OKDHS Alleging Abuse/Neglect (April 20, 2011)

On April 20, 2011, the OKDHS received the third report at 8:35 a.m. Reportedly, OKDHS was notified that the biological mother gave birth to a healthy baby on April 18, 2011. Reportedly, the baby weighed over eight pounds. The baby was born at home through a mid-wife and had been scheduled for a well-baby check. The mother's child, Christian Norris, died December 7, 2010, and the mother's live-in boyfriend, Joshua Benton, had been arrested and charged with Felony First Degree Murder and was awaiting trial. The biological father refused to speak with OKDHS. The OKDHS made a finding of Unsubstantiated-Services Recommended. The OKDHS determined that Christian's mother was very appropriate with the newborn baby and was providing adequate care. The OKDHS verified that she continued to follow the Safety Plan and she and the children continued to live with the relative. The OKDHS also verified that the family continued to attend Counseling.

### Report of Autopsy (May 26, 2011)

On May 26, 2011, the State Medical Examiner's office made a finding of Probable Cause of Death as Complications of Lumbar Spine Fracture due to Blunt Force Trauma. The manner of death was classified as Homicide. The report by the Medical Examiner's office in part stated:

This 3 year old boy (DOB: June 18, 2007) was found unresponsive in bed by his mother. He was transported to [a metropolitan hospital] where he was pronounced dead following resuscitation efforts on December 7, 2010 at 1507 hours. He had reportedly been sick on and off with flu-like systems for the past week. He reportedly had fevers and vomiting and was unable to hold anything down.

### Medical Examiner Opinion

Death of this child was due to complications of a lumbar spine fracture. Subsequent to this examination, it was revealed that a boyfriend had confessed to hyperextending the child's back while in the bathtub the day before the death. This is consistent with the injury seen at autopsy. The manner of death is classified as homicide.
