Reportedly, three-year-old Andrew Prior was in a hospital due to falling off the arm of a couch, hitting his head, and having a seizure. Andrew Prior was scheduled to have brain surgery due to bleeding on his brain. Andrew Prior was also alleged to have a large bruise on his right forearm that was reported to have been caused by a closing car door.

The OKDHS accepted this report as a Priority I Investigation. This investigation was ongoing. Reportedly, on August 28, 2014, upon further medical evaluation, he had bilateral retinal hemorrhaging and a subdural hematoma with a midline brain shift. Andrew Prior died on August 31, 2014.

There had been one prior pertinent report of alleged abuse/neglect regarding Andrew Prior and siblings while in the Krajian Foster Home.

Report to the OKDHS Alleging Abuse/Neglect (October 21, 2013)

The report was received on October 21, 2013, and assigned as a Priority II Investigation with two days to initiate contact with the alleged victim. Reportedly, Andrew and his two siblings resided in the foster home of Mallory and Peter Krajian. Allegedly, the children had been previously sexually abused prior to coming into the OKDHS custody. The children have continued to act out sexually. The foster mother, Mallory Krajian, reported older sibling #2 had sex with older sibling #1 while at a babysitter's home. Allegedly, the older sibling #2 tried to do this with Andrew Prior, too.

The OKDHS made a finding of Unsubstantiated as to the allegations of Neglect-Failure to Protect and Sexual Behavior/Lack of Supervision. A staffing was held by the OKDHS to determine if the older sibling #2 needed a therapeutic foster home. The OKDHS documented smelling marijuana when entering the foster home and older sibling #1 and #2 disclosed they had been spanked by the foster parents. Mallory Krajian denied using marijuana and spanking the children. The OKDHS documented there would be unannounced visits made by the Permanency Planning worker and the Foster Care worker to the foster home.
