Defining Parent Partnership

Alliance's definition of parent partnership:

- ▶ Involves commissioners, staff, policymakers and parents who all make an active choice to sustain a meaningful relationship in working toward an agreed upon goal in areas related to planning, implementation, evaluation and oversight
- ▶ Parents are acknowledged as experts in what is needed for their family and community and provided with supports to ensure their ability to contribute in a meaningful way.
- ▶ Staff/policymakers/commissioners commit to providing information and other supportive resources including an accessible contact person for the parents and helping other staff, commissioners and policymakers fully engage with the parents.

“Nothing about us, without us”

Why Partner with Parents?

Expands opportunities for parents who have previously received services to be mentors and powerful resources for families currently using services

Engages parents with expertise to recommend improvements in policies, programs and funding to address specific needs of parents, children and youth and communities.

Key Elements of a True Partnership

- ▶ Authentic engagement
- ▶ Shared goals and shared power
- ▶ Shared knowledge and resources (understanding what parents need to remain strong and healthy)
- ▶ Shared problem-solving (identifying the strengths and problems, identifying the strategies and taking actions)
- ▶ Shared successes and celebrations
- ▶ Mutual respect and trust
- ▶ Open, honest and non-judgmental communication
- ▶ Strengths-based
- ▶ Cross-sector collaboration

The OCCY Parent Partnership Board may serve as a Hub for connecting boards and councils across disciplines at the local, state and national levels to increase cross-sector collaboration and a pipeline of parent leaders

- ▶ Assist with strategic planning for the organization and community
- ▶ Help raise awareness about services and resources available to families
- ▶ Help translate data into real life situations affecting children and families by sharing their families' stories about organizational services via social media, public media, etc.
- ▶ Mentor, coach or train other parents to take on leadership roles in their community
- ▶ Utilize parent partnership board members as co-trainers with organizational staff (e.g. Protective Factors training, hosting Community Cafes, etc.)

Steps to Create a Parent Partnership Board

A Planning Group is currently working to:

- Develop a Parent Partnership Board role description
- Identify a designated staff member to support the Parent Partnership Board
- Determine budget and coordinated Funding
- Develop and implement a recruitment and selection process
- Plan and hold orientation meetings and trainings
- Support regular meetings of the Parent Partnership Board
