**DISCUSSION REGARDING THE REPORT FROM THE PERFORMANCE IMPROVEMENT COMMITTEE**

Ms. Henderson presented the report from the Performance Improvement Subcommittee held on Wednesday, September 17, 2014, as follows:

The first presentation was by Yvon Fils-Aime on the Big 4.

The ODMHSAS Behavioral Health and Wellness program has created and launched the Know Your Big 4 Campaign – a plan to expand health screenings to all behavioral healthcare settings, build a multi-faceted infrastructure around tobacco cessation for our consumers – one that is quite compatible with lifestyle change around nutrition and fitness as well. With strong support from ODMHSAS Leadership and high commitment from the Oklahoma behavioral health providers, the ODMHSAS Behavioral Health and Wellness program launched the Know Your Big 4 Campaign with success – 27 agencies participated in the first call to action, later 81 wellness champions from mental health and substance abuse agencies received and started distributing Know Your Big 4 materials. The Behavioral Health and Wellness program will monitor the progress of the campaign and will report to ODMHSAS Leadership, accordingly.

The second presentation was by Michaelle Statham, Employee Assistance Program Coordinator, on the State Employee Assistance Program.

In June 2013, the Office of Management and Enterprise Services approached DMHSAS about taking over the provision of the state employee assistance program (EAP). Due to unforeseeable circumstances, the state EAP had no counseling staff and was about to lose their long-time support staff as well.

DMHSAS agreed to an immediate takeover of services. We immediately implemented a problem assessment and crisis intervention process. A new administrative assistant was hired and we began hiring contract EAP counselors to provide long-term services to state employees.
After several years of difficult budget cuts, the state EAP was in desperate need of re-establishing basic services. Counselors were hired, including a female, since the state EAP had been without a female counselor for three years. On-call counselors were put in place to provide availability of services 24/7 in case of crisis. We also provided clients outside of the metro area the choice of face-to-face counseling in their home area. For the previous four years, employees outside of the metro area had to drive to Oklahoma City or opt for counseling over the phone.

**RESULTS:** 46.2% increase in clients served from FY13 to FY14

Utilization rate of counselor hours increase from 26.5% in FY13 to 52% in FY14.

**DISCUSSION AND POSSIBLE ACTION REGARDING CRITICAL INCIDENT REPORT**

Mr. Crosby presented the Critical Incident Report and had no additional information to add. He reported that there was a change to the restraints graph. Previously, the Children’s Recovery Center’s restraint numbers were included which are usually higher than other facilities numbers due to the difference in what is considered a restraint for children and adults. However, the national data does not include children’s numbers. The numbers for the Children’s Recovery Center have been removed from that graph so that it is a true comparison to the national data. The data for the CRC is in a separate graph which compares this year’s numbers to their previous year’s numbers.

Dr. Pierce moved to approve the Critical Incident Report. Mr. Carson seconded the motion.

**DISCUSSION REGARDING THE REPORT FROM THE FINANCE COMMITTEE**

Dr. Haynes presented the report from the Finance Committee meeting held on Wednesday, September 24, 2014, as follows:

**Finance Report Ending August, 2014**

Mr. McCann presented the finance report for the month ending August 2014. He presented the budget to actual comparison report as follows:

Revenue collections are trending below projections by $2 million
Expenditures are trending below projections by $60.6 million
The year-to-date net variance for the agency is a positive $58 million or 13%.
Mr. McCann also explained that the large variances in the expenditures were primarily due to the fact that this was the first set of financials for FY15 and the variances are because the agency is still setting up provider contracts and vendor purchases for the fiscal year. The $60 million positive expenditure variance will reduce significantly as the year proceeds.

**SFY 2015 Budget Revisions 1**
Mr. McCann presented budget revision 1 that had been processed since the approval of the FY15 Budget. The revision was an increase of $3.2 million to the current budget. The increase was primarily for new federal grants received and for restoration/repair costs to Griffin Memorial Hospital and Central Oklahoma for past storm damages.

The Finance Committee recommended approval of the FY15 August Financial Report and Budget Revision 1.

**SFY 2016 Budget Request**
Commissioner White and Mr. McCann presented a review of the FY16 Budget Request for submission to the Governor and the Oklahoma State Legislature. The Finance Committee recommended approval of the FY16 Budget Request.

**DISCUSSION AND POSSIBLE ACTION REGARDING MONTHLY FINANCE REPORT**
Juaréz McCann, Chief Financial Officer, was available to answer questions from the Board regarding his report, but he had nothing further to add to Dr. Haynes' comments regarding the Finance Committee meeting.

Dr. Haynes moved to approve the Financial Report. Mr. Carson seconded the motion.

**PRESENTATION**

Commissioner White and Durand Crosby presented the Norman Land Plan. Mr. Crosby gave a brief history of the hospital in Norman and mental illness treatment in Oklahoma. Commissioner White reported on the Norman Land Plan that would sell land owned by ODMHSAS, and the money would be used to
improve our infrastructure. The plan is meant to create collaboration in the community, support the ODMHSAS mission, and honor our historical presence. She stated that there was a bill that passed in the Legislature in the last session that allows the ODMHSAS Board in their capacity as trustees of the Real Property Trust to sell certain tracts of land when or if the plans are ready to move forward.

NEW BUSINESS
Dr. Sullivan stated that there is a tradition of changing the Chair of the Board of ODMHSAS every two years, and his rotation at Chair is almost done. Major Pulido stated that he is willing to be on the nominating committee.
