Certified Community Behavioral Health Clinics: 

In incubator for Innovation

Commissioner
Carrie Slatton-Hodges
What makes CCBHC work?

A comprehensive model joined with a unique payment model.
CCBHC Successes

CCBHC expanded services to better suit individual needs of Oklahomans and number of recipients receiving these services continues to rise.

- **Added** Care Coordination, Vocational, Housing, Nutrition, and Occupational Therapy
- The number of Oklahomans served by CCBHCs has grown **102%** in year 4.
- Increased **Urgent Recovery Centers** from 3 to 10
- Established infrastructure for **Mobile Crisis Teams**

Oklahoma Innovations

Consumer Report Card

Individualized, one-page consumer “report card” included lab results, medication compliance, services received and screenings for each consumer. The cards assigned a grade to the agency on how well services to each consumer were coordinated and provided, with results also available to staff involved in the individual’s care.

Most in Need

Prioritized treatment recipients accounting for the most crisis center and inpatient stays, distributed information in real time to each provider identifying consumers to prioritize stabilization of these individuals.

Telehealth and Law Enforcement

Approximately 12,000 tablets with built-in cellular connection are being used across the state, providing immediate access to care and treatment services.

Devices are within homes, health and emergency departments, sheriffs and police departments helping Oklahomans overcome transportation barriers to accessing care in rural communities.
On any given month, over 317 hours of services are provided through mobile technology established through CCBHC.
Oklahoma Outcomes

Added **981** new jobs to the healthcare workforce sector - an estimated economic impact of **$34,953,525.41** annually.

CCBHC also realize

- **21% reduction** in the use of psychiatric inpatient beds
- **14% reduction** in ER visits
- **69% reduction** in the use of crisis stabilization and rehabilitation.
Oklahoma Outcomes

Reduced the average time for initial assessment to 3.2 days

- 78.4% change in adults receiving a body mass index and follow-up counseling
- 82.4% increase in children’s weight assessments
- 70% change in suicide risk assessment
- 76.4% change in adult suicide risk assessment
- 75% percent of adults are seen within seven days following a hospitalization and 93% are seen within 30 days.
- 70.1% of children are seen within seven days and 92.3% are seen within 30 days.

Number of Clients Served By the Three Demonstration CCBHCs

- PreCCBHC: 17,862
- CCBHCYr1: 18,985
- CCBHCYr2: 20,624
- CCBHCYr3: 22,715
- CCBHCYr4: 22,931
