(A) The service recommended must also not be available within thirty (30) days of the initial date of assessment,

(A) The recommendation should be altered to include the most appropriate combination of interventions available in the participant's language,

(B) Due to problems with service availability caused by language barriers, this is the only override in which interventions from multiple categories can be commingled, and

(C) Before using this override, the participant's address shall be verified.

(16) "Sustained abstinence" should be used when an override may be appropriate when recognizing that a significant period of verifiable abstinence or recovery exists between the time of the offense and the assessment:
