### **ITEM PRESENTED BY THE DIRECTOR – Mr. Patterson**

**103. Emergency Bridge Repair Project**

Love County – District VII – Bridge at County Road over I-35

**Information Only;** No Commission action required.

July 1, 2014

JOURNAL OF THE TRANSPORTATION DIRECTOR  
DEPARTMENT OF TRANSPORTATION  
STATE OF OKLAHOMA

No. 103

EMERGENCY BRIDGE REPAIR PROJECT FOR County Road OVER I-35 in Love CO:  
Structure No. 4317 1685X, NBI 16603, 1.6 Miles north junction SH-32

The subject bridge consists of two 81' continuous "I" beam spans over the Interstate with 32' approach spans on each end. An overheight southbound vehicle struck and damaged all four (4) beams. The impact was so severe at the point of impact that it knocked out a 1' chunk over half of the bottom flange on all four (4) beams. The damaged bridge is not capable of supporting live load traffic. Division 7 forces immediately closed the county road. Department forces do not have the capability required to make the repairs. An emergency project needs to be done to repair the bridge and to maintain the structural capacity at an acceptable level to the driving public.

In accordance with Title 61 of the Oklahoma Statutes, Section 130, and the Oklahoma Administrative Code, Section 730:1-5-1(4), I hereby declare that an emergency exists which impairs the safety of the traveling public and I authorize the Department to issue an emergency contract for repairing the bridge. The estimated cost for the project is \$375,000.00.
