

As you are all aware, security concerns continue to be of extreme importance to us all. In an effort to continue to keep Transportation functioning and current, OMES has had to shut down the **ODOT Large File Transfer** service on Friday, December 12, 2021. In following that line of thinking OMES has partnered with Mimecast, an industry leader in email security and protection, to improve the State of Oklahoma security posture while improving your email experience, and allowing large files up to 2GB to be sent and received.

To replace this service, we ask that anyone who needs to send or receive large files use the State of Oklahoma Mimecast portal at the following address.

<https://ok-gov.login-us.mimecast.com/u/login/?gta=apps#/login>

Please use the following guides to learn more about Mimecast for sending and receiving large files.

[View this guide](#) for information on **sending** emails with Mimecast's Large File Send feature.

[View this guide](#) for information on **receiving** emails with Mimecast's Large File Send feature.

For all other Mimecast documentation, please visit the Oklahoma Cyber Command Mimecast Training Resources at the following address for more information.

<https://cybersecurity.ok.gov/content/mimecast-training-resources>

As things continue to progress, we will provide information as we receive it. Please feel free to send this internal email to any who may need it and If you have any issues using Mimecast, have any issues that this doesn't fulfill, or have any other general needs please don't hesitate to contact the OMES service desk at servicedesk@omes.ok.gov or phone at 405-521-2444.
