Oklahoma Dept. of Transportation - Bridge Inspection Report

Oklahoma Dept. of Transportation - Bridge Inspection Report

<u>NBI No.:</u> 18770		<u>Structure No.:</u> 5507 0071WX		Local ID: -1	<u>Suff. Rating:</u> 82.00	ND
Inspection Date:	8/27/18	Reported By:	Gary Hines			
Invoice No.:	GLH818	Inspected With:	Gary Richardson			

BRIDGE NOTES:

Four span continuous steel beam structure with spans at 47'-74'-74'-47'.

INSPECTION NOTES:

8/27/18

G Hines inspection comments - 8/27/2018 PX - Trees need cut & sprayed at the SW wing area * Satisfactory slopewalls in most areas - minor settlement noted & buckling at the bottom is developing on the north & South below #8 beam * There is a power line for lighting outside the West curb * Satisfactory side drains * The road below is the SW access road to the State Fairgrounds (seasonal traffic - low ADT) * PX - Lots of debris needs cleaned off the seats.

Oklahoma Dept. of Transportation - Bridge Inspection Report

N	BI No.:	Structure No.:	Local II	<u>D:</u>	Suff. Rating: 82.00				
	8770	5507 0071WX	-1						
The	ere is a large spall & delamination	n in bay #2 of span #1. Lig	ht to moderate spalls b	elow the rail at the co	onstruction joints. Son	ne minor defect			
not	ed along the diaphragms with of	her minor defects.							
865 / 4	St.Open Gird End(5Ft	(LF) 90.00	0.00	68% 61.00	32% 29.00	0.00			
PX	- Some abutment ends (mainly	#1 thru #5) have light exfol	iation & loss started alc	ing the top & bottom	flanges (2ft5ft. each). Lots of heavy			
sur	face rust on most areas of each	end (2006 photo). The bea	am ends at the South at	outment are pressing	into the backwall. Ne	eds cleaned &			
pai	nted SOON.								
870 / 4	Concrete Wingwall	(EA) 4.00	100% 4.00	0.00	0.00	0.00			
872 / 4	St.Gird Und Const.Jt	(LF) 810.00	0.00	92% 747.00	8% 63.00	0.00			
PX	- Many of the girder ends have	light exfoliation & loss start	ed along the top flange	below the construction	on joints. Mostly the o	outer beams are			
affe	ected at this time. Lots of heavy	surface rust on most areas	of each end. Needs cle	eaned & painted SOC	N. Loss not serious a				
909 / 4	Pourable Fix Jt.Seal	(LF) 635.00	0.00	0.00	0.00	100% 635.00			
PX	- There are 9 construction joints	s total. There are spalls & p	atches along each joint	- worst are at #1- 7-	8- & 9 (photo @ #1).	Some of the			
spa	alls have been patched with aspl	nalt. The sealant is deterior	ated overall with seepa	ge evident below. Fro	om 4ft to 50ft is affect	ed each joint -			
13f	t average. Needs redone SOON	<u> </u>							
957 / 4	Pack Rust Smart Flag	(EA) 1.00	100% 1.00	0.00	0.00	0.00			
Pa	ck rust exists between the diaph	ragms and the beams unde	er the leaking joints.						
958 / 4	Concrete Cracking SF	(EA) 1.00	0.00	0.00	100% 1.00	0.00			
PX	- The deck has some light to me	oderate transverse cracks t	hat have not been seal	ed. Some light patter	n cracks are present	in scattered			
are									
960 / 4	Settlement SF	(EA) 1.00	0.00	100% 1.00	0.00	0.00			
PX	- Due to a combination of skew	& roadway forces the decl	k is rotating CCW - up t	o 2.5in. of offset note	d. The abutment bea	rings are			
shi	fting out of position up to 5in In	addition the end panels Do	O NOT have shear conf	nectors & the panels	are moving laterally a	t a different			
pac	ce. Not serious at this time - exc	ept for bearing alignment.	<u> </u>						
963 / 4	Steel Section Loss SF	(EA) 1.00	0.00	100% 1.00	0.00	0.00			
Los	ss to the girders is not significan								
966 / 4	Exposed Abut.Piling SF	· /	0.00	100% 1.00	0.00	0.00			
PX	- There is one pile visible barely	visible below the 8th bear		nt. It has moderate ex	doliation overall.				
973 / 4	Horizontal Force SF	(EA) 1.00	100% 0.00	0.00	0% 1.00	0.00			
The	e beam ends at the South abutn	nent are pressing into the b	ackwall.
