To Whom It May Concern:

The City of Tonkawa and citizens of Kay County wholly support the improvements being made by the bridge project at I-35 and Highway 60.

The widening of the overpass, expanding lanes and all other improvements greatly enhances safety for motorists and will also encourage economic growth to this area.

If you have any questions regarding our interest in or support of this project please feel free to contact me.

Respectfully,

Kirk Henderson  
City Manager
