**Welcome to Oklahoma**

The people of Oklahoma bid you welcome to one of the nation's youngest and most progressive states.

Oklahoma's farms, ranches, mines, oil fields, industries, churches, schools, parks, and towered cities have been developed from the raw resources of our plains and highlands within the memories of those now living.

We are proud of this development, and we face the future confident of many bright tomorrows. Our young and vigorous state, with its resources, mild in climate, and peopled by those imbued with the hospitality of the west, offers unlimited horizons for the development of prosperous industries. We want your memories of Oklahoma to be happy ones — so so happy that you will find an early opportunity to return.
