

OKLAHOMA

WELCOME

Oklahoma offers the tourist hundreds of attractions. Our vast highway system provides ready access to lakes, lodges and parks that make available many and varied types of recreation. Historical markers along our highways can lead you back into an early day study of how Oklahoma developed from a wilderness into the nation's most progressive state.

Citizens of Oklahoma are constantly striving to improve our highway system. Along with many miles of new construction, Oklahoma is developing a beautification plan to keep our state beautiful. We are happy to have you in Oklahoma, and we hope you have a pleasant, safe visit to our state.
