DESCRIPTION

The Oklahoma Department of Transportation (ODOT), in cooperation with the Federal Highway Administration (FHWA) is proposing to improve SH 66 from approximately Division Street in the Town of Arcadia, through the Town of Arcadia, and continuing eastward to Luther, Oklahoma. The first segment of SH 66 through the Town of Arcadia with its historic resources and tourist attractions, is narrow, has poor pavement conditions, and lacks sufficient drainage. The second segment, just east of Arcadia to Luther, lacks shoulders, has poor pavement conditions and contains two severely skewed intersections with poor sight distance where SH 66 intersects with Hiwassee Road and Indian Meridian Road.

PURPOSE

The purpose of this meeting is to present the two proposed projects for the segments of SH 66 from Division Street, through the town of Arcadia to the town of Luther, and to solicit comments from the public regarding the proposed improvement to SH 66 including the intersection improvements at Hiwassee and Indian Meridian Roads.

The purpose of the projects are to improve the roadway’s safety for the travelling public while maintaining and protecting its historic nature and the heritage tourism benefits that Route 66 provides.

SIGNIFICANT IDENTIFIED CULTURAL RESOURCES

Arcadia Round Barn
Brooks Building
Historic Route 66 Roadbed
