DESCRIPTION

The Oklahoma Department of Transportation (ODOT), in cooperation with the Federal Highway Administration (FHWA) is proposing to improve the bridge crossing over the Caney River on State Highway 123 (SH-123), located 1.68 miles north of the SH-123/US-60 junction in the City of Bartlesville in Washington County. The purpose of the project is to provide a structurally sound crossing and preserve the transportation continuity over the Caney River on SH-123 and improve intersection safety.

As part of our efforts to keep the public informed of this project and involved in the decision making process, ODOT has scheduled a public meeting. The purpose of this meeting is to present the preferred alternative, environmental impacts and obtain comments on the preferred alternative. This will aid ODOT in moving forward with the completion of the environmental studies, design, and subsequent construction.
