What is Being Built?

This page allows you to view the future construction work packages for the I-44 and US-75 Interchange. The interchange will be reconstructed in 5 separate projects. Work Package 1 is currently under construction. Work Packages 2-5 will complete the proposed improvements. Three of the four existing loop ramps will be replaced with direct connection, flyover bridges. The rendering below shows what the new interchange will look like.
Please click on the image below to view the Interactive Map to see what will be constructed with each Work Package.

Use the map options to enhance your viewing.
- View the map legend
- Change the map background
- Print a copy of the map
- Measure a distance on the map
- Add a comment to the map
  - +/- to zoom in and out
  - Type in an address to find a specific location
