## QUESTIONS AND ANSWERS

**Question 1:** We are requesting that ODOT permit other manufacturers reflective sheeting for the above solicitation. ODOT Standard Specifications for Highway Construction sections 719 and 850 define ODOT's requirements for signs. Appendix A [page A.6 specifies a sole source for reflective sheeting in the R1-6 & V1-2 Color chart. The material for R1-6 is an ASTM D4956 type IV defined in Section 850.02 of the standard specifications.

There are other reflective sheeting manufacturers approved by ODOT and I believe the ODOT sign shop is using digital printers and reflective sheeting from another manufacturer. We are requesting page A.6 be amended to permit reflective sheeting approved by ODOT.

**Answer:** We will allow additional reflective sheeting manufacturers provided that they meet or exceed current ODOT specifications for this material.

**Question 2:** We saw the Bid for the above project. It appears the city has already had the signs fabricated and are requesting cost only for footers. Is that true?

**Answer:** No, we are asking for the fabrication of all signage and installation of footers.
