Right-of-Way information shown herein is for reference only and should not be used as the sole evidence to determine actual right-of-way limits. The right-of-way information shown on the assessment map was reproduced from georeference digitally scanned rail maps dated prior to the 2010 assessment.

Station information indicates the limits of stations obtained from scanned rail maps. The image files for the scanned images are stored on ODOT's file server as referenced to the table names above.
