

## Schedule of Monthly Data Reports for CES and LAUS

The CES and LAUS data are available for Oklahoma (as well as other states) and their areas each month about six weeks after the survey reference week. For instance, "preliminary" data for November 2020 and "final" data for October 2020 will be published in a comprehensive state report on December 18, 2020. Most states will publish their state and area data on the dates below.

The annual publication for the new benchmark data is effective with the preliminary January estimates yearly. The estimates are available in March. For more information, see: <https://www.bls.gov/sae/overview.htm/employ> and <https://www.bls.gov/lau/lauov.htm>.
