Schedule of Monthly Data Reports for CES and LAUS

The CES and LAUS data are available for Oklahoma (as well as other states) and their subareas each month about six weeks after the survey reference week. For instance, "preliminary" data for November 2023 and "final" data for October 2023 will be released in a comprehensive state data report on December 22, 2023. Most states will release their state and area data on the report schedule below.

The annual release for the new benchmark data is effective with the preliminary January estimates yearly. The estimates are available in March. For more information, see https://www.bls.gov/sae/overview.htm and https://www.bls.gov/lau/lauov.htm

Below is the current data report schedule for Oklahoma

Reference Month	State Employment and Unemployment Report Schedule	Metropolitan Area Employment and Unemployment Report Schedule
	Report Date	Report Date
