Section II: QCEW Data 2021 by State and MSA.....	10
Section III: QCEW Data 2021 by County.....	15

Introduction

Description of Data

QCEW produces a comprehensive tabulation of data on the number of establishments, monthly employment and quarterly wages for workers covered by State unemployment insurance (UI) laws and Federal workers covered by the Unemployment Compensation for Federal Employees (UCFE) program. These data are aggregated to many different levels, starting at the 6-digit NAICS industry level, to higher industry levels (NAICS industry groups, sectors, and supersectors), and to higher geographic levels (MSA, State, and national). The information contained in this handbook was tabulated from the Quarterly Contributions Reports and Multiple Worksite Report supplements submitted by employers subject to the *Oklahoma Employment Security Act*.

Establishments

An establishment is an economic unit, such as a farm, mine, factory, or store that produces goods or provides services. It is typically at a single physical location and engaged in one, or predominantly one, type of economic activity for which a single industrial classification may be applied. Occasionally, a single physical location encompasses two or more distinct and significant activities. Each activity is reported as a separate establishment, if separate records are kept, and the various activities are classified under different NAICS industries.

Covered Employment

QCEW monthly employment data represent the number of covered workers who worked during, or received pay for, the pay period that included the 12th day of the month. Covered employees in the private-sector and in the state and local government include most corporate officials, all executives, all supervisory personnel, all professionals, all clerical workers, many farmworkers, all wage earners, all piece workers, and all part-time workers.

Average Annual Employment

QCEW annual average employment is calculated by summing the twelve (12) months of employment (final) for a calendar year, and then dividing by 12. This is usually first published in June of the following year, with final annual average QCEW data available in September of that year. Please note that rounding may result in minor differences between hand calculations and the published annual average employment data from QCEW.

Total Wages

Covered employers in most states report total compensation paid during the calendar quarter, regardless of when the services were performed. A few state laws, however, specify that wages be reported for, or be based on, the period during which services are performed, rather than for the period during which compensation is paid. Under most state laws or regulations, wages include bonuses, stock options, severance pay, the cash value of meals and lodging, tips and other gratuities, and, in some states' employer contributions to certain deferred compensation plans, such as 401(k) plans.

Average Weekly Wages

The average weekly wages shown were computed by dividing the total wages for the year by the average employment to arrive at annual average wages. They in turn were divided by 52 weeks to determine average weekly wages.

Industrial Divisions

Employment and wages for 2021 are reported by major industry division as defined in the 2022 *North American Industry Classification System Manual*. Industry detail shown in this handbook covers the following industry divisions:

Agriculture, Forestry, Fishing and Hunting
Mining, Quarrying, and Oil and Gas Extraction
Utilities
Construction
Manufacturing
Wholesale Trade
Retail Trade
Transportation and Warehousing
Information
Finance and Insurance
Real Estate and Rental and Leasing
Professional, Scientific, and Technical Services
Management of Companies and Enterprises
Administrative and Waste Services
Educational Services
Health Care and Social Assistance
Arts, Entertainment, and Recreation
Accommodation and Food Service
Other Services, except Public Administration
Public Administration
