M A N A G E D  C A R E

The Oklahoma Health Care Authority, in partnership with four medical managed care organizations (MCOs) and three dental benefit plans (DBPs), will transition to a new health care model through the SoonerSelect program.

SoonerSelect will allow the state to coordinate SoonerCare members’ needs with the best provider to meet those needs, while containing costs through a capitated, risk-based model. The SoonerSelect plans are:

Comprehensive Managed Care for Oklahoma: A Key Tool for Program Improvement

Oklahoma is pursuing a comprehensive Medicaid managed care approach that will allow the state to achieve its payment and delivery system reform goals:

- **Improve health outcomes for Oklahomans**

- **Transform payment and delivery system reform statewide by moving toward value-based payment and away from payment based on volume**

- **Improve member satisfaction**

- **Contain costs through better coordinating services**

- **Increase cost predictability to the state**

MANAGED CARE

Populations

- Children, including foster children, low-income parents, pregnant women, and adults ages 19-65 (expansion population) will be enrolled.
  - Individuals enrolled in SoonerCare due to their status as “aged, blind or disabled (ABD)” will initially remain in fee-for-service and will be phased in at the appropriate time.
  - Senior citizens and people enrolled in both Medicare and Medicaid will initially remain in fee-for-service.
- To ensure each member has a health plan responsible for their care and health, the SoonerCare application will include a choice of plans. People who do not choose a plan will have one assigned to them. Members will have opportunities to switch their plan.

All health plans will provide these new SoonerSelect members the same health care services currently offered by SoonerCare, but each plan may offer extra benefits to help improve the health of its members.

SoonerSelect members will be able to compare the extra benefits provided by each health plan and choose the right one for them.
