

Continuous Glucose Monitor (CGM) Eligibility with SoonerCare

Continuous Glucose Monitors (CGMs) can make diabetes care simpler, safer and less stressful. SoonerCare, Oklahoma's Medicaid program, covers FDA-approved CGMs, like Dexcom and Freestyle Libre, and supplies for members who meet medical and documentation requirements. If you have a diabetes diagnosis and are on SoonerCare, talk to your provider to see if you are eligible.

Are you eligible?

- You have a diabetes diagnosis and use insulin; Or
- You are under 21 with a history of problematic hypoglycemia
 - Two or more lows under 54 mg/dL despite treatment changes; Or
 - At least one severe event that required help from another person due to confusion or loss of consciousness.

Who can help

- Provider's office can handle prescriptions, renewals and documentation.
- Pharmacies can assist with refills and supply availability.
- Diabetes educators offer training and help interpret readings.
- Community Health Centers and local health departments may provide free or low-cost education.

CGMs are more than devices. They support confidence, safety and peace of mind. We are here to help you get and keep the care you need.

For benefit or eligibility questions, call the SoonerCare Helpline at 800-987-7767.
