Re: **Rates Calculation Correction and Claims Recycling**

Dear Provider,

OHCA identified an issue with the fee schedule update implemented effective July 1, 2026. We have corrected it in our system and updated the [Title XIX fee schedule](#) on our website. We are adjusting the original claims that were impacted. Due to the volume, this process will take multiple weeks. You will see the claims adjustments on the weekly remittance advice, beginning Sept. 30, 2026. OHCA will notify providers when the process is complete.

This correction aligns our rates with the current CMS fee schedule. It is not a change to the methodology or a discretionary rate adjustment.

We appreciate your patience and cooperation. Providers can view their claims set for recycling each week in the [Provider Portal](#).

If you have questions about the affected SoonerCare fee-for-service claims, please contact the adjustment unit at 800-522-0114, option 1, then option 3. For questions about affected claims paid by the SoonerSelect plans, please contact the [respective plan](#).

Sincerely,

Oklahoma Health Care Authority
