Hospital Drug Carve Out List

Effective July 1, 2020, the Oklahoma Health Care Authority (OHCA) has changed the billing practices for certain high-investment drugs therapies. This change will improve access to expensive yet highly impactful drug therapies for the SoonerCare population.

These high-investment drugs which are “carved out” will still require a prior authorization (PA).

If the billing entity is purchasing the carve-out drug through their 340b program, then all applicable federal, supplemental, and value based rebates will be collected from the billing entity.

Please see Provider Letter 2020-04 for more information.

**Drugs currently carved out:**

- Abecma® (idecabtagene vicleucel) (add date 4/8/21)
- Breyanzi® (lisocabtagene maraleucel) (add date 7/1/21)
- Kymriah® (tisagenlecleucel)
- Luxturna® (voretigene neparvovec-rzyl)
- Tecartus™ (brexucabtagene autoleucel) (add date 9/9/2020)
