

# Program of All-Inclusive Care for the Elderly (PACE)

## Fast Facts

# December 2023

The Program of All-inclusive Care for the Elderly (PACE) is a managed care model of acute and long-term care that integrates the provision and financing of medical and long-term care services. The PACE model is centered on the belief it is better for the well-being of seniors with chronic care needs and their families to be served in the community whenever possible.

The goal is to maximize the participant's autonomy and ability to reside in their community-while receiving quality care at lower cost relative to the Medicare, Medicaid and private-pay traditional payment systems.
