OHCA Board Takes a Look Back at SoonerCare

OKLAHOMA CITY – The Oklahoma Health Care Authority’s board heard during their meeting Thursday an overview of the most comprehensive report ever conducted on Oklahoma’s SoonerCare (Medicaid) program. Board members also passed a rule that will open the Insure Oklahoma program to larger businesses and college students, upon approval by Gov. Brad Henry.

Mathematica Policy Research Inc., recently concluded their comprehensive evaluation of Oklahoma’s SoonerCare 1115 waiver program. The group studied the program as it has evolved since 1993, when the OHCA was created. Mathematica studied the history of the program to assess the impact of key policy and implementation decisions on enrollment trends, access to care, provider participation, health of members and costs to Oklahoma. The state’s program was compared with those of other state Medicaid programs and national trends.

Representatives from the group presented key findings to the board. Included in those findings is that SoonerCare has improved coverage for Oklahoma children with enrollment of eligible children increasing 36 percent from 2000 to 2006. The group reported that 90 percent of all MDs in the state, both specialists and primary care providers, had contracts with SoonerCare Choice. They also noted that preventable hospitalizations dropped among adults by 24 percent in urban areas and 15 percent in rural areas from 2003 to 2006.

Oklahoma is providing more for less, according to the study. They found that Oklahoma’s Medicaid costs per member were below the national average between 1996 and 2005. Medicaid accounted for a smaller share of the state budget in Oklahoma between 1996 and 2005 than the national average and 19 comparison states, they noted. The group also noted that the OHCA sets a high standard for public reporting and accountability.

“It’s a great compliment when a leading, national consulting firm says your agency is a ‘textbook example’ of how to accomplish an initiative. But more importantly, the report gives us an outside-looking-in view of our program and agency which will help us shape the future,” OHCA CEO Mike Fogarty noted.
