June 17, 2014

Dear SoonerCare Prescriber,

The Oklahoma Health Care Authority is engaged in an effort to improve cost effective utilization of cephalosporin antibiotics by our members. The purpose of this letter is to provide updates regarding cephalosporin antibiotic coverage.

Beginning July 1st 2014, cefixime (Suprax®), ceftibuten (Cedax®), and cefditoren (Spectracef®) will require prior authorization. A list of the preferred cephalosporin antibiotics is attached to this letter in the form of a prescription change request. You may receive this form from pharmacies. The preferred products included on the prescription change request do not require prior authorization.

Antibiotics on the preferred list generally cost $8 - $15 per 10 day supply and provide similar spectrum coverage as the non-preferred products, which range in cost from $200 to $650 per 10 day supply. Your discretion in appropriate use of cephalosporin antibiotics can result in a significant cost savings.

If no available products on the preferred list meet the specific needs of your patient, a prior authorization may be submitted for consideration, along with patient-specific, clinically significant, supporting information for use of the non-preferred medication.

Updated versions of prior authorization criteria for cephalosporin antibiotics can be downloaded from www.okhca.org/rx, by clicking on “Prior Authorizations,” then clicking “Antibiotics.”

Thank you for the services you provide to Oklahomans insured by SoonerCare!
Oral Cephalosporin Antibiotics Available without Prior Authorization
