### Independent Accountant's Report

We have examined the state of Oklahoma's compliance with Disproportionate Share Hospitals (DSH) payment requirements listed in the Report on DSH Verifications as required by 42 CFR §455.301 and §455.304(d) for the year ended September 30, 2015. The state of Oklahoma is responsible for compliance with federal Medicaid DSH program requirements. Our responsibility is to express an opinion on the state of Oklahoma's compliance with federal Medicaid DSH program requirements based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants (AICPA), and the standards applicable to attestation engagements contained in Government Auditing Standards issued by the Comptroller General of the United States, as well as General DSH Audit and Reporting Protocol as required by 42 CFR §455.301 and §455.304(d). Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the state of Oklahoma complied, in all material respects, with the specified requirements referenced above. An examination involves performing procedures to obtain evidence about whether the state of Oklahoma complied with the specified requirements. The nature, timing and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

Our examination was conducted for the purpose of forming an opinion on the state of Oklahoma's compliance with federal Medicaid DSH program requirements included in the Report on DSH Verifications. The Schedule of Annual Reporting Requirements provided in accordance with 42 CFR §447.299 is presented for purposes of additional analysis and is not a required part of the Report on DSH Verifications. Such information has not been subjected to the procedures applied in the examination of the Report on DSH Verifications, and accordingly, we express no opinion on it.

Our examination does not provide a legal determination on the state of Oklahoma's compliance with federal Medicaid DSH requirements.

In our opinion, except for the effect of the items described in the Schedule of Data Caveats Relating to the DSH Verifications, the Report on DSH Verifications presents fairly, in all material respects, the state of Oklahoma's compliance with federal Medicaid DSH program requirements addressed by the DSH verifications for the year ending September 30, 2015.

In accordance with Government Auditing Standards, we are required to report all deficiencies that are considered to be significant deficiencies or material weaknesses in internal control; fraud and noncompliance with provisions of laws or regulations that have a material effect on the state of Oklahoma's compliance with federal Medicaid DSH program requirements, as it relates to the six DSH verifications set forth in 42 CFR §455.301 and §455.304(d). We are also required to report on the findings with conclusions and recommendations. We performed our examination to express an opinion on the state of Oklahoma's compliance with federal Medicaid DSH program requirements and not for the purpose of expressing an opinion on the effectiveness of the state of Oklahoma's internal control or on compliance and other matters; accordingly we express no such opinion. Our examination disclosed certain findings that are required to be reported under *Government Auditing Standards* and these findings are described in the accompanying Schedule of Data Caveats Relating to the DSH Verifications.

This report is intended solely for the information and use of the Oklahoma Health Care Authority, the State Legislature, hospitals participating in the State DSH program and the Centers for Medicare and Medicaid Services (CMS) as required under 42 CFR §455.304 and is not intended to be, and should not be, used by anyone other than these specified parties and for the specified purpose contained in 42 CFR §455.304.

Myers and Stauffer LC  
December 12, 2018

State of Oklahoma Disproportionate Share Hospital (DSH)  
Report on DSH Verifications  
For the Year Ended September 30, 2015

As required by 42 CFR §455.304(d) the state of Oklahoma must provide an annual independent certified examination report verifying the following items with respect to its disproportionate share hospital (DSH) program.

Verification 1: Each hospital that qualifies for a DSH payment in the State was allowed to retain that payment so that the payment is available to offset its uncompensated care costs for furnishing inpatient hospital and outpatient hospital services during the Medicaid State plan rate year to Medicaid eligible individuals and individuals with no source of third party coverage for the services in order to reflect the total amount of claimed DSH expenditures.

Findings: The results of testing performed related to this verification are summarized in the Report on DSH Verifications (table) included with this report.

Verification 2: The DSH payments made in the Medicaid State plan rate year must be measured against the actual uncompensated care cost in that same Medicaid State plan rate year. The actual uncompensated care costs for the Medicaid State plan rate year have been calculated and compared to the DSH payments made. Uncompensated care costs for the Medicaid State plan rate year were calculated in accordance with Federal Register/Vol. 73, No. 245, December 19, 2008, Federal Register/Vol. 79, No. 232, December 3, 2014, and Federal Register/Vol. 82, No. 62, April 3, 2017.

Findings: The results of testing performed related to this verification are summarized in the Report on DSH Verifications (table) included with this report.

Verification 3: Only uncompensated care costs of furnishing inpatient and outpatient hospital services to Medicaid eligible individuals and individuals with no third party coverage for the inpatient and outpatient hospital services they received as described in Section 1923(g) (1) (A) of the Act are eligible for inclusion in the calculation of the hospital-specific disproportionate share limit payment limit, as described in Section 1923 (g) (1) (A) of the Act.

Findings: The total uncompensated care costs reflected in the Report on DSH Verifications (table) reflects the uncompensated care costs of furnishing inpatient and outpatient hospital services to Medicaid eligible individuals and individuals with no third party coverage for the inpatient and outpatient hospital services received.

Verification 4: For purposes of this hospital-specific limit calculation, any Medicaid payments (including regular Medicaid fee-for-service rate payments, supplemental/enhanced Medicaid payments, and Medicaid managed care organization payments) made to a disproportionate share hospital for furnishing inpatient hospital and outpatient hospital services to Medicaid eligible individuals, which are in excess of the

State of Oklahoma Disproportionate Share Hospital (DSH)  
Report on DSH Verifications  
For the Year Ended September 30, 2015

Medicaid incurred costs of such services, are applied against the uncompensated care costs of furnishing inpatient hospital and outpatient hospital services to individuals with no source of third party coverage for such services.

Findings: In calculating the hospital-specific DSH limit represented in the Report on DSH Verifications (table), if a hospital had total Medicaid payments in excess of the calculated Medicaid cost, the excess was used to reduce the total uncompensated care costs.

Verification 5: Any information and records of all of its inpatient and outpatient hospital service costs under the Medicaid program; claimed expenditures under the Medicaid program; uninsured inpatient and outpatient hospital service costs in determining payment adjustments under this Section; and any payments made on behalf of the uninsured from payment adjustments under this Section have been separately documented and retained by the State.

Findings: The state of Oklahoma has retained documentation of costs and payments associated with calculating the hospital-specific DSH limits contained in this report. The state retains cost data through the collection of cost reports; Medicaid expenditure data through the MMIS and other documentation; and uninsured data through the DSH payment calculations and DSH examination.

Verification 6: The information specified in verification 5 above includes a description of the methodology for calculating each hospital's payment limit under Section 1923(g) (1) of the Act. Included in the description of the methodology, the audit report must specify how the State defines incurred inpatient hospital and outpatient hospital costs for furnishing inpatient hospital and outpatient hospital services to Medicaid eligible individuals and individuals with no source of third party coverage for the inpatient hospital and outpatient services they received.

Findings: Our examination identified that the information specified in the 2015 State MSP provides a description of the methodology for calculating each hospital's DSH payment but does not provide a description of the methodology for calculating hospital-specific DSH limits. Using documentation provided by the State and through discussions with OHCA personnel, we have been able to document the methodology for calculating hospital-specific DSH limits. The State relies on the Oklahoma Administrative Code for the definitions of inpatient hospital and outpatient hospital Medicaid reimbursable services when calculating the hospital-specific DSH limits.

State of Oklahoma Disproportionate Share Hospital (DSH)  
Report on DSH Verifications  
For the Year Ended September 30, 2015

Inpatient services are defined as follows:

(a) Covered hospital inpatient services are those medically necessary services which require an inpatient stay ordinarily furnished by a hospital for the care and treatment of inpatients and which are provided under the direction of a physician or dentist in an institution approved under OAC:317:30:5-40.1(a) or (b). Effective October 1, 2005, claims for inpatient admissions provided on or after October 1st in acute care or critical access hospitals are reimbursed utilizing a Diagnosis Related Groups (DRG) methodology. (b) Inpatient status. OHCA considers a member an inpatient when the member is admitted to the hospital and is counted in the midnight census. In situations when a member inpatient admission occurs and the member dies, is discharged following an obstetrical stay, or is transferred to another facility on the day of admission, the member is also considered an inpatient of the hospital. (1) Same day admission. If a member is admitted and dies before the midnight census on the same day of admission, the member is considered an inpatient. (2) Same day admission/discharge C-obstetrical and newborn stays. A hospital stay is considered inpatient stay when a member is admitted and delivers a baby, even when the mother and baby are discharged on the date of admission (i.e., they are not included in the midnight census). This rule applies when the mother and/or newborn are transferred to another hospital. (3) Same day admission/discharges other than obstetrical and newborn stays. In the event a member is admitted as an inpatient, but is determined to not qualify for an inpatient payment based on OHCA criteria, the hospital may bill on an outpatient claim for the ancillary services provided during that time. (4) Discharges and Transfers. (A) Discharges. A hospital inpatient is considered discharged from a hospital paid under the DRG-based payment system when: (i) The patient is formally released from the hospital; or (ii) The patient dies in the hospital; or (iii) The patient is transferred to a hospital that is excluded from the DRG-based payment system, or transferred to a distinct part psychiatric or rehabilitation unit of the same hospital. Such instances will result in two or more claims. Effective January 1, 2007, distinct part psychiatric and rehabilitation units excluded from the Medicare Prospective Payment System (PPS) of general medical surgical hospitals will require a separate provider identification number.

Outpatient services are defined as follows:

(a) Hospitals providing outpatient hospital services are required to meet the same requirements that apply to OHCA contracted, non-hospital providers performing the same services. Outpatient services performed outside the hospital facility are not reimbursed as hospital outpatient services. (b) Covered outpatient hospital services must meet all of the criteria listed in (1) through (4) of this subsection. (1) The care is directed by a physician or dentist. (2) The care is medically necessary. (3) The

State of Oklahoma Disproportionate Share Hospital (DSH)  
Report on DSH Verifications  
For the Year Ended September 30, 2015

member is not an inpatient. (4) The service is provided in an approved hospital facility. (c) Covered outpatient hospital services are those services provided for a member who is not a hospital inpatient. A member in a hospital may be either an inpatient or an outpatient, but not both (see OAC 317:30-5-41). (d) In the event a member is admitted as an inpatient, but is determined to not qualify for an inpatient payment based on OHCA criteria, the hospital may bill on an outpatient claim for the ancillary services provided during that time. (e) Separate payment is made for prosthetic devices inserted during the course of surgery when the prosthetic devices are not integral to the procedure and are not included in the reimbursement for the procedure itself. (f) Physical, occupational, and speech therapy services are covered when performed in an outpatient hospital based setting. Coverage is limited to one evaluation/re-evaluation visit (unit) per discipline per calendar year and 15 visits (units) per discipline per date of service per calendar year. Claims for these services must include the appropriate revenue code(s).

The documentation retained related to the calculation of the hospital-specific DSH limits contained in this report includes a description of the methodology used to calculate each hospital's DSH limit under Section 1923(g)(1) of the Act. For DSH payment purposes, the state defines the hospitals' payment limits in accordance with its state plan. For purposes of this examination, the state defines the hospitals' payment limits in accordance with 42 CFR §455.304.

This report is intended solely for the information and use of the Oklahoma Health Care Authority, the State Legislature, hospitals participating in the State DSH program, and the Centers for Medicare and Medicaid Services (CMS) as required under 42 CFR §455.304 and is not intended to be, and should not be, used by anyone other than these specified parties and for the specified purpose contained in 42 CFR §455.304.

State of Oklahoma Disproportionate Share Hospital (DSH)  
Schedule of Data Caveats Relating to the DSH Verifications  
For the Year Ended September 30, 2015

## Finding 1

Criteria:

Section 42 CFR §455.304(b) specifies that the State must submit to CMS a DSH examination report by December 31<sup>st</sup> each year for the Medicaid State plan rate year ending during the calendar year three years prior to that date.

Condition:

We found that two hospitals did not make available to us, during the course of this examination, supporting documentation for inpatient and outpatient hospital service costs under the Medicaid program; claimed expenditures under the Medicaid program; uninsured inpatient and outpatient hospital service costs in determining payment adjustments under the DSH Rule; and any other payments made on behalf of the uninsured from payment adjustments under the DSH Rule.

One of these hospitals was found to be out of business. The uncompensated care costs for this hospital were calculated based on services reported from state supplied MMIS claims data only.

One of these hospitals was not able to submit all the requested documentation. The uncompensated care costs for this hospital were calculated based on services reported from state supplied MMIS claims data. All Medicaid eligible claims may not have been captured.

Cause:

The Oklahoma Health Care Authority (OHCA) along with Myers and Stauffer LC provides educational material to the providers on the proper completion of the DSH Survey files and required documentation to be submitted with the DSH Surveys. One hospital was not able to pull all Medicaid eligible claims by the date the files were requested in order to provide a DSH examination report to the OHCA in accordance with the federal rules. One hospital went out of business subsequent to receiving the 2015 DSH payment.

## Notes of Recent Litigation

On February 9, 2018, the U.S. District Court for the Western District of Missouri issued an order enjoining CMS from enforcing CMS FAQ 33 and FAQ 34 and the April 3, 2017 DSH Final Rule. On March 2, 2018, in a separate case, the U.S. District Court for the District of Columbia issued an order vacating the April 3, 2017 Final Rule. Government appeals were filed in both cases and are ongoing.

State of Oklahoma Disproportionate Share Hospital (DSH)  
Schedule of Data Caveats Relating to the DSH Verifications  
For the Year Ended September 30, 2015

Our DSH examination report reflects both the existing CMS guidance (FAQs 33 and 34 and the DSH Final Rule in Federal Register/Vol. 82, No. 62, April 3, 2017), and separate, alternative calculations made based on the orders in the above-noted trial court rulings. Our report presents total uncompensated care cost using the current CMS DSH examination guidance (reducing uncompensated care cost by Medicare and private insurance payments), and, separately, for the agency's administrative convenience at its request, consistent with the above-noted court rulings (not reducing uncompensated care costs by Medicare and private insurance payments).

## **Schedule of Annual Reporting Requirements**

State of Oklahoma  
Schedule of Annual Reporting Requirements (table)  
For the Medicaid State Plan Rate Year Ended September 30, 2015

**Definition of Uncompensated Care:** The definition of uncompensated care was based on guidance published by CMS in the 73 Fed. Reg. 71904 dated December 19, 2008, the 79 Fed. Reg. 71679 dated December 3, 2014, and the 82 Fed. Reg. 16114 dated April 3, 2017. Due to uncertainty surrounding the U.S. District Court for the Western District of Missouri ordering that CMS is enjoined from enforcement of CMS FAQ 33 and FAQ 34 and the April 3, 2017 DSH final rule on February 9, 2018 and the U.S. District Court for the District of Columbia ordering that the April 3, 2017 Final Rule to be vacated on March 2, 2018, the annual reporting requirements below are presented reflecting both the existing CMS guidance (FAQs 33 and 34 and the DSH Final Rule in Federal Register/Vol. 82, No. 62, April 3, 2017) in column P, as well as separate, alternative calculations made based on the orders in the above noted court rulings in column R. The calculated uncompensated care costs (CCC) represent the net uncompensated costs of providing inpatient and outpatient hospital services to Medicaid-eligible individuals and individuals with no source of third party coverage for the inpatient and outpatient hospital services received. The CCC for these patient groups was calculated using Medicare cost reporting methods, and utilized the most recent CMS 2552 cost report. Medicaid paid claims summaries, and hospital provided data. Total uncompensated care costs represents the net uncompensated care costs of providing inpatient and outpatient hospital services to patients that fall into one of the following Medicaid in-state and out-of-state payment categories. Fee-for-Service Medicaid primary, Fee-for-Service Cross-over, Managed Care Medicaid primary, Managed Care Medicaid Cross-over, and Uninsured individuals with no source of third party coverage for the inpatient and outpatient hospital services received. The cost of services for each of these payment categories was calculated using the appropriate per diem or cost-to-charge ratios from each hospital's most recent CMS 2552 cost report. These costs were then reduced by the total payments received for the services provided (column P) and reduced by all payments other than Medicare and private insurance payments (column R), including any supplemental Medicare cost reports, in column S and column T where applicable.
