Delegates absent: Tanya Case, David Cavallaro, Steve Goforth, Mark Jones, Denae Kirkpatrick, James Patterson, Anttonia Pratt-Reid, and William Simon

Approval of Minutes

The minutes of the June 11, 2014 meeting were noted to have a typo on page 4. With the correction of Dr. Hamil's title, Mr. Tallent moved to accept the minutes, Mr. Raybern seconded the motion and they were accepted unanimously.

Public Comments

Rick Salm of NuMotion, a complex rehab technology (CRT) provider spoke during public comments to report that his company had recently stopped providing some services to SoonerCare members because of the change in policy July 1, 2014. He spoke of his concern for the quality of complex rehab technology equipment and the wait time members will now have to endure. He expressed his support for a policy change still in development that would address pricing issues with (CRT) equipment.

Financial Report

Gloria Hudson, OHCA Director of General Accounting presented the summary of the year-end financial statements included in the MAC members' online packet. She noted the percentages of variances between actual figures and the budgets figures for State Fiscal Year (SFY) 2014. She also identified the Tax and Fee revenue coming from tobacco taxes. Projections through August 2014 indicated a continuation of expenditures being under budget.

Budget Review

Vickie Kersey, OHCA Purchasing Manager reported on the SFY 2015 budget. She said that it was balanced as required by statue. She also expressed gratitude to the state legislature and governor for not requiring a 5% reduction to OHCA's budget like most other state agencies that had reduced budgets. She identified many of the programs that had targeted budget reductions and explained the few that had budget increases. Insure Oklahoma was a program impacted by the federal reduction of income guidelines for participants from 200% to 100% of the federal poverty level.

SoonerCare Operations Update

Becky Pasternik-Ikard, OHCA Deputy State Medicaid Director, reported on stable SoonerCare enrollment figures for various eligibility groups the reduction of Insure Oklahoma members and Patient Centered Medical Homes. She also compared and contrasted SFY13 statistics for four units she supervises with SFY14 figures. The Behavioral Health Unit saw a slight increase in the number of prior authorizations issued and the reviewers' caseload. Referrals, however, had a significant rise when care coordination was transferred from the Health Management Program. She highlighted the number of new cases handled by the Population Care Management unit in the areas spanning the time when members are pregnant. Case Manager Nurses currently carry a case load of about 150. The efforts of the Member Services Unit for these members were documented as steady and the chart showing call volume showed a spike in the last quarter of 2013 when SoonerCare Eligibility merged with Member Services. Provider Services' charts showed the time a provider services representative had spent on the phone addressing high emergency room utilization, the call volume and the number of on-site provider visits made to improve provider knowledge. Dr. McNeil pointed out that the Insure Oklahoma beneficiaries had dropped from around 30,000 members to 17,000 and asked if there was money available to expand the program. Ms. Pasternik-Ikard reported that there were funds to expand and the Insure Oklahoma staff had been targeting potential members. She also pointed out that some of the former members who had lost eligibility had found insurance coverage through the exchange, healthcare.gov. Dr. Crawford vetted a rumor that there had been some difficulty enrolling in Medicaid and it was determined that the issue of insurance seekers getting denials before they could enroll had been resolved by OHCA and the Centers for Medicare and Medicaid Services (CMS).

Strategic Planning Conference Report

Buffy Heater, OHCA Planning & Performance Director, reported on the Strategic Planning Conference, formerly called the Board Retreat, held at the Samis Education Center of Oklahoma University's Health and Science Center on August 14 and 15. 184 attended in person and it was streamed live to Durant, Enid, and the agency. The conference, held in conjunction with the

Board Meeting, focused on the seven agency goals one to five years out. Ms. Heater reported that there were several common themes:

- Data usage and technological tools: improvement through Health Information Exchanges both public and private.
- Telemedicine: excitement mixed with caution to have a high integrity system.
- Mobile Technology: expanding the use of online and text communications.
- Collaboration: build and expand efforts across the Healthcare Cabinet, private industry and other non-health related state agencies
- Insure Oklahoma: seek permanency.
- Education: improve health literacy at the point of service using varied delivery venues.

Ms. Heater concluded her presentation with a hopeful note. The portfolio of the conference is posted across the agency and the process of prioritizing the ideas will develop a new synergy.

Action Items / Proposed Rule Changes

Isaac Lutz, Senior Policy Specialist, presented two Proposed Rule Changes (PRC).

- 14-17: changing the financial eligibility criteria for categorically eligible members, aged, blind, and disabled, to the test that Supplemental Security Insurance (SSI) uses. There was no additional discussion. Mr. Tallent moved the approval of the change, Ms. Pryor seconded, and the motion.
- 14-14: adding language that prohibits Home and Community Based Services (HCBS) case managers from providing direct services while making referrals for the same services (conflict of interest). There was no additional discussion. Mr. Tallent moved the approval of the change, Ms. Pryor seconded, and the motion passed with one nay vote.

Traylor Rains, Oklahoma Department of Mental Health and Substance Abuse Services (ODMHSAS) Policy Director, presented two PRCs with behavioral health implications.

• 14-15: limiting the number of hours behavioral health providers can bill per week to 35. A last minute change basing the calculation on a rolling four-week average was given to the members. Mr. Tallent moved to accept the change and Dr. McNeill seconded. Dr. Walton asked how the change would affect the \$14.3M cost savings and Mr. Rains explained that a survey of claims showed that 4%, 218 providers, would be impacted by the change and shared a couple examples of over-billing. He went on to note that the change would not include psychological testing and would only apply to billing for Medicaid members. Dr. Walton commented that he thought that the approach was a backward way to prevent overbilling. When the vote was called, the move to accept the PRC was approved unanimously.

• 14-16: a new rule creating a "Health Home" that will create a provider type to integrate care management across the spectrum of health care allowing for new management codes and eliminating the duplication of other billing codes. Mr. Tallent moved for the acceptance of the PRC and Ms. Pryor seconded the motion. Dr. Crawford asked how the change would save money and Mr. Rains explained that some of the fee-for-service billing codes would be converted to a composite code. He also noted that the first two years of implementing the change would be financed by the federal government at a 90% rate. The motion to accept was passed without objection.

Informational Items

Mr. Lutz returned to inform the committee of four PRCs under research for possible future approval. They included the authorization process for private duty nursing (PDN), the method of paying for certified nurse's aide (CNA) training, restrictions on allergy services and immunotherapy, and the use of electronic referrals for specialty services. He also reported on two proposed amendments to the waivers to the State Plan granted by CMS; requiring a small copay for HCBS members getting preferred generic drugs and transitioning approximately 160 members from My Life My Choice, Sooner Seniors, and Medically Fragile to other operational units. Sylvia Lopez, OHCA Chief Medical Officer clarified that the proposed prior authorization process for PDN involved children with very complicated medical needs. Mr. Raybern asked if the removal of the zero copay was a federal mandate.

New Business

Dr. Crawford asked the members to be ready to discuss dates for 2015 MAC meetings at the November 20th MAC meeting.

Adjournment

Mr. Raybern made a motion to adjourn the meeting, Dr. Walton seconded, and the vote to adjourn was unanimous.

Oklahoma Health Care Authority SOONERCARE CHOICE/INSURE OKLAHOMA WAIVER RENEWAL SUMMARY

The Oklahoma Health Care Authority (OHCA) announces its intent to submit a request for renewal of the SoonerCare Choice/Insure Oklahoma Section 1115 Research and Demonstration Waiver to the Centers for Medicare and Medicaid Services (CMS). We request to continue the demonstration for another three years from January 1, 2016 through December 31, 2018.

The State currently has approval to operate the SoonerCare Waiver through December 31, 2015. The State will apply to renew the current waiver without any changes for the extension request.

The waiver allows the SoonerCare program to operate the Primary Care Case Management service delivery model whereby members are enrolled with a patient-centered medical home (PCMH) and establishes federal authorization for the Insure Oklahoma (IO) program. The Insure Oklahoma program offers both an Employer Sponsored Insurance (ESI) program and the Individual Plan (IP).

OHCA will continue to take into consideration comments/suggestion from the public received through November 30, 2014 in order to prepare to submit the application.

To obtain copies of the proposed renewal and/or leave public comment, interested parties may view or download the proposal from www.okhca.org.

OHCA welcomes your comments on these plans to request authorization to maintain the SoonerCare Choice and Insure Oklahoma programs. Comments and questions can be submitted online at http://www.okhca.org or you may contact Sherris Harris-Ososanya Coordinator of the OHCA Waiver Development & Reporting Unit by email at Sherris.Harris-Ososanya@okhca.org by phone at (405) 522-7507.

November MAC Proposed Rule Amendment Summaries

A face to face tribal consultation regarding the following proposed changes was held Tuesday, November 4, 2014 in the Board Room of the OHCA.

The following rules were posted for comment on October 22, 2014 through November 20, 2014.

14-34 DDS Psychological Evaluations/Waiver Services List — The proposed revisions are to implement policy changes recommended during the Oklahoma Department of Human Services (DHS) Developmental Disabilities Services (DDS) annual policy review process. Home and Community-Based Services (HCBS) Waiver's rules for persons with intellectual disabilities or certain persons with related conditions are amended to: (1) include timeframes for how long psychological evaluations are considered valid to determine eligibility for DDS HCBS Waiver services; (2) include timeframes for reporting any address changes or other contact information to DHS; and (3) provide timeframes when an individual is removed from the Request for Waiver Services List when the individual fails to respond or does not provide DHS requested information.

Budget Impact: Budget Neutral

14-23 DDS Third Party Employment — Developmental Disabilities Services (DDS) policy is revised to comply with 29 CFR 552.109 regarding domestic service employees employed by third-party employers, or employers other than the individual receiving services, or his or her family, or household. The regulation precludes third party employers from claiming the companion exemption.

Budget Impact: Budget Neutral

November 2014 MAC Proposed Rule Amendment Summaries

Information Only

The following are summaries of proposed rules. These proposals are still in the research stage and are not final. As such, some of the proposals you see here may not advance beyond the research stage. OHCA prepared this document to give members of the MAC a preview of rules, waivers, and state plan revisions. This document is for informational purposes only.

Rule Changes

- **14-18 Policy Change for State Plan Personal Care services** Rules for the State Plan Personal Care services are amended to match current procedures that are in place at OKDHS. Changes include policy clean up to remove unnecessary language regarding personal care service settings, the criteria for persons eligible to serve as personal care assistants, and minor changes to administration of the State Plan Personal Care services.
- **14-22 Update to DME Policy** Policy is revised to update Part 17 (Medical Suppliers) in Chapter 30 to clarify rules for durable medical equipment (DME) services. Changes include updating billing and PA requirements for DME items, updating the list of DME items that require a certificate of medical necessity, clarifying that repairs for rental DME items are not covered, and revising the definition of invoice.
- **14-24 340B Drug Discount Program** The proposed 340B Drug Discount program rule is being added to comply with a federal mandate. The purpose of this rule is to outline special provisions for providers participating in the 340B Drug Discount program. The changes to this program will increase transparency in drug pricing. Changes to the program include aligning reimbursement rates for all drugs closer to the actual price the pharmacy pays for the drug, increasing rebates paid by drug manufacturers, providing rebates for drugs dispensed to SoonerCare members, and lowering reimbursement for certain generic drugs.
- **14-26 Certified Nursing Aide Training** Certified Nursing Aide (CNA) training rules are amended to discontinue reimbursing schools and instead directly reimburse the students on a pro rata basis for each quarter they are employed in a nursing facility and to change the amount paid.
- **14-27 Private Duty Nursing** Private Duty Nursing (PDN) rules are amended to reflect initial determination and renewals for services will be determined by an OHCA physician. Additionally, the physician will be responsible for scoring the acuity grid utilized to determine medical necessity. OHCA nurses' responsibility will be to gather, summarize, and present the individual cases to the physicians.
- **14-28 Allergy Services and Immunotherapy** Rules are amended to add regulations and limitations on allergy services and immunotherapy utilization, current policy has no controls on these services other than medical necessity.
- **14-29 Pharmacy Lock-in Program** Rules are revised to lock an enrolled member in to a single pharmacy and prescriber rather than a single physician and single provider. As a result, a member is not restricted to one physician; however, the member will be locked into one pharmacy and must receive prescriptions from an identified prescriber. The change will alleviate the administrative burden of having to lock and unlock providers that are not identified as the member's primary care physician.

- **14-30 Family Planning** The State Plan is revised to remove contraceptive brand name products that are no longer covered. Additionally, language will be updated to align practice to industry standards in regard to time intervals for long-acting reversible contraceptive (LARC) insertion, removal, and reimbursement.
- **14-31 Cost Sharing** —The proposed cost sharing rule is being revised to add smoking and tobacco cessation counseling and products to the exemption for co-payments list. In addition, the proposed change will remove barriers to accessing cessation treatment and may reduce the smoking related morbidity and healthcare cost for SoonerCare members. Further, proposed change may result in increased quit rates and more successful smoking cessation outcomes.
- **14-33 Policy Change for the Tax Equity Fiscal Responsibility Act Program** Policy is amended to change the Tax Equity Fiscal Responsibility Act (TEFRA) program eligibility rules to match federal guidelines for level of care (LOC). Changes include replacing all TEFRA language regarding mental retardation or ICF/MR to individuals with intellectual disabilities or ICF/IID. Rules regarding ICF/IID LOC eligibility will change to match current DSM-5 and Social Security Act guidelines regarding intellectual disabilities. Specific LOC criteria for determining both hospital and nursing facility will be added to coincide with the ICF/IID criteria. Finally, TEFRA rules will also allow one additional psychological evaluation after the age of six, as medically needed.
- **14-35 DMEPOS Free Choice** Rules for SoonerCare members' freedom of choice to select their provider of durable medical equipment, prostethics, and orthotics supplies (DMEPOS) are amended to state that providers must inform members of this right when filling or ordering DMEPOS.
- **14-37 SoonerCare Choice Policy Change** SoonerCare Choice enrollment ineligibility rules are updated to match the Waiver's Special Terms and Conditions. Individuals in the former foster care eligibility group are excluded from participation in SoonerCare Choice; children who are known to be in OKDHS custody are now eligible to participate in SoonerCare Choice.
- **14-38 Individual Plan of Care** Inpatient psychiatric hospital policy is revised to clarify that the member's signature on the Individual Plan of Care is required at the time of completion.
- **14-40 Rehab Day Program Progress Note** Policy is revised to clarify that the daily or weekly requirement for progress notes only applies to the psychosocial rehabilitation (PSR) day program. All other PSR/behavioral health rehabilitation services must follow the general progress note guidelines in OAC 317:30-5-248 which require a progress note upon delivery of service/date of service.
- **14-41 Referrals for Specialty Services** Policy is revised to remove language regarding the inclusion of written referral documentation in members' medical records. The referral will still be captured and maintained in the member record; however, the use of electronic referrals will replace the need of paper documentation.
- **14-42 Inpatient Psychiatric Hospital** Policy is revised to change the timeframe in which a history and physical (H&P) should be completed in order to comply with federal regulation. The H&P will be completed within 24 hours after admission into an inpatient psychiatric hospital.
- **14-43 Institutional Transition Case Management** 1915(c) waiver, Medically Fragile policy is revised to clarify the current language within the Institutional Transition Case Management service definition. Currently, the policy is inconsistent with references to Institutional Transition Case Management services and transitional case management services.

Oklahoma Health Care Authority

14-44 Electronic Notices — OHCA allows electronic notices to be sent to SoonerCare members' designated email addresses. Members may actively select that they wish to receive electronic communications from the agency through the SoonerCare application. The agency will confirm that the member is informed of their right to change this election at any time, ensure that members receive mailed notice of this election, and that all notices are posted on the SoonerCare application for member viewing within one business day. In instances of failed electronic communications, the agency will notify the member, through the mail, of this failed correspondence and that action is necessary.

Urine Drug Screening — The agency implemented limitations on laboratory services due to the overutilization of drug screenings from a max daily amount to a max yearly amount. Based on evidence based research and CMS guidelines on drug screening for members receiving opioid treatment, even a highly susceptible individual should not need more than 3-4 screens a years. Implementing the restrictions would be a cost savings to the agency; no rules were required to implement this change.
