REIMBURSEMENT - Eligible providers specified below will be reimbursed for services rendered to Oklahoma Medicaid recipients. This excludes dually eligible Medicare and Medicaid recipients. The supplemental payments, which reflect the alternative fee schedule, will be made as part of service reimbursement based on the calculation of the differential amount between the base Medicaid payment and supplemental payment for allowable Current Procedural Terminology (CPT) codes. Each Oklahoma Medicaid covered medical (excluding vaccines, technical component, laboratory and radiology services) billable codes listed on the applicable Oklahoma Medicaid fee schedule.

With regard to the Agency fee schedule on Attachment 4.19-B, Page 3, a different conversion factor (CF) will be used ~~for physicians employed by the University of Oklahoma and Oklahoma State University~~. The established RVU will be used and the conversion factor (CF) amount will result in a payment equal to ~~140%~~ 175% of the Medicare allowable. The reimbursed percentage will not exceed the following payment methodology:

- a. An average of the commercial payment from the top five (5) commercial payors for each CPT code were provided to generate the Average Commercial Rate (ACR).
- b. Both the Medicare rate and the ACR were multiplied by the Oklahoma Medicaid fee-for-service (FFS) volume of services reimbursed for eligible CPT codes.
- c. The statewide Medicare equivalent of the ACR was calculated by dividing the product of ACR and FFS volume by the product of the Medicare and FFS volume.
