

State Plan Under Title XIX of the Social Security Act

State: _____

METHODOLOGY FOR IDENTIFICATION OF APPLICABLE FMAP RATES

The State will determine the appropriate FMAP rate for expenditures for individuals enrolled in the adult group described in 42 CFR 435.119 and receiving benefits in accordance with 42 CFR Part 440 Subpart C. The adult group FMAP methodology consists of two parts: an individual-based determination related to enrolled individuals, and as applicable, appropriate population-based adjustments.

Part 1 – Adult Group Individual Income-Based Determinations

For individuals eligible in the adult group, the state will make an individual income-based determination for purposes of the adult group FMAP methodology by comparing individual income to the relevant converted income eligibility standards in effect on December 1, 2009, and included in the MAGI Conversion Plan (Part 2) approved by CMS on _____. In general, and subject to any adjustments described in this SPA, under the adult group FMAP methodology, the expenditures of individuals with incomes below the relevant converted income standards for the applicable subgroup are considered as those for which the newly eligible FMAP is not available. The relevant MAGI-converted standards for each population group in the new adult group are described in Table 1.

Table 1: Adult Group Eligibility Standards and FMAP Methodology Features

Covered Populations Within New Adult Group		Applicable Population Adjustment

	For each population group, indicate the lower of: • The reference in the MAGI Conversion Plan (Part 2) to the relevant income standard and the appropriate cross-reference, or • 133% FPL. If a population group was not covered as of 12/1/09, enter "Not covered".	Enter "Y" (Yes), "N" (No), or "NA" in the appropriate column to indicate if the population adjustment will apply to each population group. The enrollment cap or caps are as specified in the applicable section 1115 demonstration special terms and conditions as confirmed by CMS, or in alternative authorized cap or caps as confirmed by CMS. Attach CMS correspondence confirming the applicable enrollment cap(s).
3. The state applies a combined enrollment cap adjustment for purposes of claiming FMAP in the adult group:

☐ Yes. The combined enrollment cap adjustment is described in Attachment C

☐ No.
4. Enrollment Cap Methodology: Attachment C describes the methodology for calculating the enrollment cap adjustment, including the use of combined enrollment caps, if applicable.

Part 3 – One-Time Transitions of Previously Covered Populations into the New Adult Group

A. Transitioning Previous Section 1115 and State Plan Populations to the New Adult Group

- ☐ Individuals previously eligible for Medicaid coverage through a section 1115 demonstration program or a mandatory or optional state plan eligibility category will be transitioned to the new adult group described in 42 CFR 435.119 in accordance with a CMS-approved transition plan and/or a section 1902(e)(14)(A) waiver. For purposes of claiming federal funding at the appropriate FMAP for the populations transitioned to new adult group, the adult group FMAP methodology is applied pursuant to and as described in Attachment E, and where applicable, is subject to any special circumstances or other adjustments described in Attachment D.

Breast and Cervical Cancer Program	*no MAGI cases reside in our online enrollment system to perform a reprocess job.			
MHSAS only	*no MAGI cases reside in our online enrollment system to perform a reprocess job.

Members with SoonerPlan eligibility	4,824	31,810	36,634	32,552
Members with child in Household on a case less 1 year old, age 19-64, FPL% <= 138%, with no eligibility or nice denial, not denied for any other reason beside over income or no longer applying (as they would still be denied)	68,024	17,428	85,452	66,215
Members Denied for SoonerCare for Not Categorically Related in last 2 month with no other elig or nice denial, aged 19-64 with FPL% <= 138% Note: This number will be larger if encourage people to apply 2 months before go-live	N/A	12,543	12,543	11,660
Totals	79,662	70,154	149,816	123,036

There were over 60,000 members with child applying for SoonerCare that were denied for SoonerCare for other things beside over income.

Plan for Reprocess

For each reprocess, all adults, ages 19-64, on the case with FPL equal to or under 138% that are not applying for SoonerCare and do not have current/future ESI eligibility will be marked to be applying for SoonerCare. Not just the members identified by the reprocess criteria. This will prevent one adult on the case receiving HAP prior to any other member on the case.

OHCA should decide how much time between the reprocesses after the first set of reprocesses. This could be 1 or 2 weeks or monthly. This time would be for allowing helpdesk to handle questions, issues.

Suggested Order of reprocesses:

- Members Denied for Not Categorically related.
- Members with IP
Members with SoonerPlan in 2 runs.
- Members with child in multiple runs.
