

## SoonerSelect Medical Contracted Entity (CE) Requests to Change Service Provisions

The SoonerSelect Medical Contract at Section 1.7: Covered Benefits and Section 1.8: Medical Management states that medical contracted entities (CEs) may not impose prior authorization guidelines/criteria or utilization management practices that are more restrictive than OHCA without OHCA prior approval.

On September 23, 2025, Aetna Better Health of Oklahoma (ABHOK) submitted a formal request to OHCA for review and approval to change service provisions.

OHCA subject matter experts (SMEs) reviewed the requests, evaluating them in comparison to OHCA historical processes and practices, standard business practice in other markets, and available data to determine whether to approve the requests.

OHCA decisions are noted in the table below:

SoonerSelect Medical Requests to Change Service Provisions				
OHCA'S CURRENT CLAIMS PROCESSING PROTOCOL	PROPOSED MODIFICATION TO CLAIMS PROCESSING PROTOCOL	REASON FOR PROPOSED CHANGE	ANTICIPATED IMPACT	OHCA DECISION
<b>Split Fill – Edit Logic</b>				
OHCA currently allows full fill for 30 days beginning with first fills for members beginning new treatment.	Aetna Better Health of Oklahoma is requesting a change in service provisions to allow the contracted entity to add Split-Fill logic, which will impact new to therapy claims and will allow only a 15-day supply for each fill. Once the fills add up to a cumulative 90-day supply within a 120-day cumulative lookback period, members would be able to receive the full month's supply. This will apply to a limited list of medications. The extra fill would not count against the monthly 6 fill prescription limit. The claims will reject at point	Many members who begin a new regimen will stop taking their medication(s) within the first 90 days of therapy due to severe side effects, poor tolerability and frequent dose/medication changes. In this scenario, any unused medication cannot be returned to the pharmacy and is therefore discarded and wasted.	Analysis since April 2024 to August 2025, looked at 44 utilizers of impacted drugs. Cost impact of a 15-day supply for each utilizer was \$141,000.	Approved 10/15/2025  <i>Item will be presented at the November 2025, MAC meeting</i>

*Presented at the 11/6/2025 Medical Advisory Committee meeting*
