

## SoonerSelect Medical Contracted Entity (CE) Requests to Change Service Provisions

The SoonerSelect Medical Contract at Section 1.7: Covered Benefits and Section 1.8: Medical Management states that medical contracted entities (CEs) may not impose prior authorization guidelines/criteria or utilization management practices that are more restrictive than OHCA without OHCA prior approval.

On October 27, 2025, Humana Healthy Horizons of Oklahoma (HHH) submitted a formal request to OHCA for review and approval to change service provisions.

OHCA subject matter experts (SMEs) reviewed the requests, evaluating them in comparison to OHCA historical processes and practices, standard business practice in other markets, and available data to determine whether to approve the requests.

OHCA decisions are noted in the table below:

SoonerSelect Medical Requests to Change Service Provisions				
PROCEDURE CODE(S) IMPACTED	OHCA'S CURRENT CLAIMS PROCESSING PROTOCOL	PROPOSED MODIFICATION TO CLAIMS PROCESSING PROTOCOL	ANTICIPATED IMPACT	OHCA DECISION
<b>Anesthesia for Pain Management</b>				
<b>20526</b> – Therapeutic injection into the carpal tunnel <b>20550</b> – Injections into a tendon sheath, ligament, or joint <b>20551</b> – Injecting a therapeutic substance into a single tendon origin or insertion <b>20552</b> – Trigger point injections in one or two muscles <b>20553</b> – Trigger point injections administered into three or more muscles	OHCA's current protocol allows for separate reimbursement for CPT code 99152 and the pain management procedures.	Humana is seeking approval to treat anesthesia as incidental when billed with certain pain management codes. Charges for anesthesia CPT code 99152 should be denied as incidental.	Some impact to Members and Providers as anesthesia will be denied as incidental when billed with certain codes.	Approved 11/1/2025 <i>OHCA has previously approved this request for Aetna Better Health of Oklahoma.</i> <i>Item will be presented at the January 2026, MAC meeting</i>
