## *A Look Back, A Look Forward*

---

Dear Patrons and Readers,

The past year has been full and exciting. In 2024, we began our collaboration with the Oklahoma Department of Corrections to create a prison braille program. The Library's Accessible Instructional Materials (AIM) Center now has a substantial collection of Pre-K children's twin vision books to put into the hands of Oklahoma's children. We began circulating magazine subscriptions directly. Our collection has continued to grow exponentially and our librarians stay focused on making sure they're available to you. The Library expanded summer reading activities. The Recording Studio received equipment upgrades and can now produce twice the number of materials for our patron's enjoyment.

Sadly, this year we lost one of our stalwart volunteers, Kent Graham. Kent's legacy will, however, carry on as the donations received in his memory will fund an equipment upgrade for our Oklahoma Telephone Reader Program. The old analog telephone system hub will be digitized to a more modern and efficient audio service.

In 2025, we have a lot to look forward to. Patrons can participate in a beta test for My Talking Books, a new Alexa skill that will help patrons access BARD books through voice commands. The new Digital Talking Book Machine DA2 with wifi capability, will also be released. The AIM Center prison braille program looks to produce twin vision books for kindergartners and grades beyond as the prison inmates advance in their certifications. The Library is hosting a Winter Reading Program.

As we look forward to more opportunities to provide even better services, we hope current and future patrons find more enjoyment and pleasure listening to our talking books.

From all of us at your Library we wish you all a wonderful new year.  
- Kevin Treese

### *Winter Reading Improves Wellness*

Among New Year's goals, many people create goals for wellness, such as beginning an exercise routine, eating healthier, or spending more time outdoors. This year, make one of your wellness goals to read more.

Reading has many benefits, including reducing stress, improving sleep, slowing mental decline and improving personal relationships by increasing empathy toward others. Reading on a regular basis thereby supports your overall health and wellbeing.

a novel

It's the last cool night of spring. Connor declares he is going to become a poet by fall. He has hooked his knees around the top bar of the swing set and is hanging upside down. He's still wearing his suit; his tie dangles and shimmers. I haven't taken off my Costco name tag.

"You can't just decide to be someone," I say. I'm on a swing drifting back and forth at the speed of a cradle.

"We're 23," he says. "This is America. You say something you're going to be by September."

"I don't know," I say. "The same. Alive."

This coming-of-age novel shows the struggles many face as 20-something young adults trying to find our place in a world that appears to be full of stronger, more passionate, and more ambitious people than ourselves.

# Volunteer Spotlight

## *A Lifelong Passion for the Written Word*

Renee Sharpe English began volunteering at the OLBPH in February of 2024, but she began her work with the written word in elementary school as a library aid. Renee loved helping people find books to read and even shelving the books. Growing up, her parents took her to book mobiles, where she first discovered her love for the smell of books.

Renee has also always had a passion for helping others, both in her 44-year career as an executive assistant, keeping others organized and things running smoothly, and as a volunteer.

“I believe volunteering to be mutually satisfying and something we can have fun with while making a difference at the same time,” said Renee.

Before starting as a volunteer at the OLBPH, Renee volunteered for 10 years at a similar organization in Dallas, where she recorded full-length books. Renee contributes to the Oklahoma Telephone Reader program. She reads and records newspaper articles for patrons to play back.

“I love to think about the end user being able to stay connected to the world through my efforts,” said Renee.

Renee loves to bake and can jellies, and competes in state fairs. “It’s so fun to come up with new ideas and ways to combine things, trying to impress the judges,” said Renee. She also enjoys exercising and traveling.
